Contact details for EURAXESS – Researchers in Motion: Kitty Fehringer
European Commission's Directorate General for Research and Innovation
Unit B.2 "Skills"
Kitty.fehringer@ec.europa.eu

Naturejobs and EURAXESS today announce a new collaboration to provide their users with more comprehensive listings of science jobs in Europe. EURAXESS, a European Commission initiative, and Naturejobs, Nature Publishing Group's jobs and careers service, have agreed to a partnership where all European vacancies will automatically appear on both databases.

Naturejobs.com, the world's largest science jobs board with over 9,000 job posts, will now share European listings with EURAXESS Jobs, the European portal addressed to professional researchers. Researchers will have access to a wider range of opportunities across Europe. The partnership will also significantly enhance the visibility of vacancies for employers using both services.

EURAXESS Jobs features vacancies, funding opportunities and fellowships throughout Europe. EURAXESS is a joint initiative of the European Commission and the countries participating in the European Union's Framework Programme for Research.

"We're delighted to enter this partnership with EURAXESS Jobs," says Andrew Douglas, Global Head of Advertising and Sponsorship, Nature Publishing Group. "We look forward to providing our jobseekers with access to a wider range of opportunities, and our recruiters with increased exposure of their vacancies among candidates that are using EURAXESS Jobs."

Basic job postings to naturejobs.com and EURAXESS Jobs are free and employers using these sites range from top pharmaceutical and biotechnology companies to highly respected academic and government institutions. The job listings cover a wide range of disciplines and seniority levels.

About EURAXESS

The European Commission's unique initiative EURAXESS - Researchers in Motion provides access to a complete range of information and support services for European and non-European professional researchers and scientists wishing to pursue research careers in Europe. EURAXESS offers access to the job market; assists researchers in advancing their careers in another European country and supports scientific organisations in their search for outstanding research talent. EURAXESS is a truly pan-European initiative, supported by 38 participating countries across Europe. Through its portal EURAXESS provides a single access point to information across all countries and personalised assistance by the more than 500 staff members working in 200 Services Centres. EURAXESS is the implementation arm of the European Union's policy work on researchers in line with the Innovation Union commitments.

About Nature Publishing Group (NPG)

Nature Publishing Group (NPG) is a publisher of high impact scientific and medical information in print and online. NPG publishes journals, online databases and services across the life, physical, chemical and applied sciences and clinical medicine.

Focusing on the needs of scientists, *Nature* (founded in 1869) is the leading weekly, international scientific journal. In addition, for this audience, NPG publishes a range of *Nature* research journals and *Nature Reviews* journals, plus a range of prestigious academic journals including society-owned publications. Online, nature.com provides over 5 million visitors per month with access to NPG publications and online databases and services, including *Nature News* and *NatureJobs* plus access to *Nature Network* and Nature Education's Scitable.com.

Scientific American is at the heart of NPG's newly-formed consumer media division, meeting the needs of the general public.

Founded in 1845, *Scientific American* is the oldest continuously published magazine in the US and the leading authoritative publication for science in the general media. Together with scientificamerican.com and 16 local language editions around the world it reaches over 3 million consumers and scientists. Other titles include *Scientific American* Mind and *Spektrum der Wissenschaft* in Germany.

Throughout all its businesses NPG is dedicated to serving the scientific and medical communities and the wider scientifically interested general public. Part of Macmillan Publishers Limited, NPG is a global company with principal offices in London, New York and Tokyo, and offices in cities worldwide including Boston, Buenos Aires, Cairo, Delhi, Mumbai, Hong Kong, Madrid, Barcelona, Munich, Heidelberg, Basingstoke, Melbourne, Paris, San Francisco, Seoul and Washington DC.
