Oxford International Programme in Evidence-based Health Care, MSc in Evidence-based Health Care

This is a joint programme from Oxford University's Continuing

Professional Development Centre and Department of Primary

Health Care. It is offered as a part-time course consisting of six

taught modules and a dissertation. The flexible structure of the

course has been devised to fit with the structure of specialist training

and to accommodate student choice. The modules from the

International Programme in Evidence-based Health Care can be

taken as stand-alone short courses. Available modules are:

- The Practice of Evidence-based Health Care (compulsory for MSc)
- Introduction to Study Design and Research Methods (compulsory for MSc)
- Clinical Epidemiology and Decision Making (Evidence in Practice)
- Ethics in Health Care
- Evidence-based Change
- Evidence-based Dentistry
- Evidence-based Diagnosis and Screening
- Further Practical Statistics
- Patient-based Evidence
- Qualitative Research Methods
- Randomised Controlled Trials
- Statistics for Health Researchers (online)
- Systematic Reviews

For further information visit the website at <http://www.conted.ox.ac.uk/courses/professional/staticdetails.php?course=210>

MSc in Evidence for Public Policy and Practice

Evidence for Policy and Practice Information and Co-ordinating (EPPI)

Centre, Social Science Research Unit, Institute of Education, London, UK

This MSc has been designed for graduates and policy-makers, practitioners,

managers and researchers who want to become more skilled

in systematic reviewing and develop a critical understanding of the

relationships between research evidence and public policy and practice.

Students will be encouraged to build their studies around their

own areas of interest. These could relate to social welfare, education,

crime and justice, transport, health and health promotion, housing,

or any other area of social policy or practice. This degree can be

completed in 1 year full-time or over 2 years part-time. Core course

modules are delivered in four full-day sessions, 1 week apart. These

modules can be taken as short courses without accreditation. Further

information: please visit our website (www.eppi.ioe.ac.uk/cms)

If you have an evidence-based dentistry event or workshop you

would like to include here, please contact us at ebdeditor@nature.com
