

# Forthcoming evidence-based courses and conferences

## 2017

### 21-22 June

Evidence Live 2017

Blavatnik School of Government, University of Oxford, UK

Further information is available <http://evidencelive.org/>

### 13-16 September

Global Evidence Summit

Cape Town, South Africa

The theme of the Summit, 'Using Evidence. Improving Lives' will highlight and promote evidence-informed approaches to health policy and development, offering the most cost-effective interventions.

Further information is available at

<http://www.globalevidencesummit.org/>

### Cochrane Workshops

Details of workshops organised by the Cochrane Collaboration in a range of locations across the world are listed on the web at <http://www.cochrane.org/tags/news-events/workshops>

### Oxford postgraduate part-time courses and training in evidence-based health care

Oxford University's Department for Continuing Education in partnership with the Nuffield Department of Primary Care Health Sciences and the Centre for Evidence-Based Medicine run a wide range of programmes in evidence based health care. Courses include:

- MSc in Evidence-Based Health Care
- MSc in EBHC Systematic Reviews
- MSc in EBHC Medical Statistics
- DPhil in Evidence-Based Health Care
- Postgraduate Diploma in Health Research
- Postgraduate Certificate in Health Research
- Short courses in Evidence-Based Health Care

For further information visit the website at <https://www.conted.ox.ac.uk/about/evidence-based-healthcare>

### MSc in Evidence for Public Policy and Practice

*Evidence for Policy and Practice Information and Co-ordinating (EPPI) Centre, Social Science Research Unit, Institute of Education, London*

This MSc has been designed for graduates and policy-makers, practitioners, managers and researchers who want to become more skilled in systematic reviewing and develop a critical understanding of the relationships between research evidence and public policy and practice. Students will be encouraged to build their studies around their own areas of interest. These could relate to social welfare, education, crime and justice, transport, health and health promotion, housing or any other area of social policy or practice. This degree can be completed in one year full-time or over two years part-time. Core course modules are delivered in four full-day sessions, one week apart. These modules can be taken as short courses without accreditation.

Further information: please visit our website (<http://eppi.ioe.ac.uk/cms/Default.aspx?tabid=168>)

If you have an evidence-based dentistry event or workshop you would like to include here, please contact us at [ebdeditor@nature.com](mailto:ebdeditor@nature.com)
