E-mail: caninst@md2.vsnl.net.in

Errata

Abstracts

Cancer cure: drugs, genes or surgery?

Br J Cancer 78(2): 141–158

The abstracts were from the Joint Winter Meeting of the British Association for Cancer Research and the British Association of Surgical Oncology entitled 'Cancer cure: drugs, genes or surgery?' held at the Royal College of Surgeons of England, London on 27/28 November 1997 and not a British Association for Cancer Research, Association of Cancer Physicians and Royal Society of Medicine (Oncology Section) meeting as stated in the journal.

We apologize for the error that occurred in the original publication.

The effect of 3-week tamoxifen treatment on oestrogen receptor levels in primary breast tumours: a flow cytometric study

Br J Cancer 77(10): 1657–1660

Figure 1a was included to demonstrate the gating methodology for the cytokeratin positive SPE control. In order to eliminate potential confusion that Figure 1a is from the same sample tube as the ER positive tumour in Figure 1b, 1c and 1d, the x-axis label should read SPE control instead of Anti-ER PE.
