Since the publication of this article, the authors have asked that the following text be added to the acknowledgements. 'TJL and AJP were supported, in part, by the National Institute for Health Research (NIHR) Oxford Biomedical Research Centre at Oxford University Hospitals NHS Trust and University of Oxford'. The correct acknowledgements section is shown below.

The authors would like to apologize for any inconvenience this may have caused.

## ACKNOWLEDGEMENTS

We wish to thank the following data managers and transplant physicians for providing data and responding to requests for further information: J Horn and D Culligan, Aberdeen Royal Infirmary; J Gribben and J Cavenagh, St Bartholomew's Hospital London;

W Clay, Birmingham Heartlands Hospital; P Breslin, University Hospitals Bristol NHS Trust; T Dalton and A Bloor, The Christie Hospital Manchester; S Kukkapalli and M Koh, St George's Hospital London; S Grep and H Hunter, Derriford Hospital Plymouth; K Hussein and M Kamzi, Guy's Hospital London; B Holt and J Snowden, The Hallamshire Hospital Sheffield; F O'Boyle and J Apperley, Hammersmith Hospital London; S Hardaker and M Gilleece, Leeds Teaching Hospitals NHS Trust; R Lewin and A Hunter, The Leicester Royal Infirmary; J Ward and A Stewart, Queen Elizabeth Hospital Birmingham; S Littlewood, The Royal Marsden Hospital Sutton; J Sudak and S Mackinnon, The Royal Free Hospital London; L McNally and G Jackson, The Royal Victoria Infirmary Newcastle; K Thompson, University College Hospital London and A Robertson and P Johnson, The Western General Hospital Edinburgh. TJL and AJP were supported, in part, by the National Institute for Health Research (NIHR) Oxford Biomedical Research Centre at Oxford University Hospitals NHS Trust and University of Oxford.

*Author contributions:* PM designed the study, collected data and wrote the manuscript, AP and TL designed the study, performed transplants and contributed data, JP and KK ran the data registry and collected data, RP performed statistical analysis, BS, MP, AF, DM, CC, DM and GC performed transplants and contributed data, all authors critically reviewed and approved the manuscript.

## Pre-transplant risk factors for cryptogenic organizing pneumonia/bronchiolitis obliterans organizing pneumonia after hematopoietic cell transplantation
