Depletion of mitochondrial DNA up-regulates the expression of MDR1 gene via an increase in mRNA stability

Exp Mol Med 2008;40:109-117

The authors regret errors in labels of Figure 4.

In x-axis labels of Figure 4, "pGL3/basic" and "pMDR" should be changed to "Control" and "Depleted", respectively. In legends at top of Figure 4, "Control" and "Depleted" should be changed to "pGL3/basic" and "pMDR", respectively.

The authors apologize for any inconvenience this mistake may have caused.
