## NIH Public Service Announcement

**Ankylosing spondylitis (AS)**—Doctors at NIH invite you to participate in study, which seeks to identify the genes which may affect the severity of AS. Compensation provided. Call 1-866-444-2214 (TTY: 1-866-411-1010) NIH, part of Department of Health and Human Services.

*The NIH is nonprofit; a department of the government's Department of Health and Human Services. The NIH is the primary Federal agency for conducting and supporting medical research. Helping to lead the way toward important medical discoveries that improve people's health and save lives, NIH scientists investigate ways to prevent disease as well as the causes, treatments and even cures for common and rare diseases. NIH research impacts: child and teen health, men's health, minority health, seniors' health, women's health and wellness and lifestyle issues. Composed of 27 Institutes and Centers, the NIH provides leadership and financial support to researchers in every state and throughout the world.*
