Every Donor Counts. Are YOU Supporting the ACMG Foundation?

Did you know that when more ACMG members donate to the American College of Medical Genetics (ACMG) Foundation, you not only support the future of our profession, but we are better able to attract outside grants and donations? Foundation, corporate and individual donors from outside the College membership are more likely to support an organization in which all members are committed through their charitable giving, with gifts large or small. Donations to the ACMG Foundation help support the practice of medical genetics and can be made year round. The ACMG Foundation is a 501(c)(3) not-for-profit organization. Gifts and grants from individuals, foundations and corporations are fully tax-deductible according to law. Such contributions enable the educational activities of the American College of Medical Genetics, which strives to fulfill the medical genetics needs in human health, improving the quality of life for all. For more information about the ACMG Foundation, please write or call: ACMGF, 9650 Rockville Pike, Bethesda, MD 20814; Phone: 301-634-7127.

ACMG Continues to Educate the Public About Genetics

ACMG on the Airwaves in May - As part of ACMG's mission to educate the public and professionals alike about medical genetics, ACMG will be featured on SkyRadio during the month of May. ACMG president-elect Bruce Korf, MD, PhD, FACMG will be talking about genetics and health on the *21st Century Healthcare Forum* on all flights in North America in May on both American Airlines and Northwest Airlines. This educational outreach effort was made possible by a grant from the American College of Medical Genetics Foundation.

Welcome Meredith Weaver, ACMG's New Associate Project Manager

We are pleased to announce that effective Tuesday, February 5th, **Meredith A. Weaver** has joined the ACMG team as an Associate Project Manager. Meredith is currently a PhD Candidate at Johns Hopkins University School of Public Health in Baltimore and joins ACMG part time while she finishes her dissertation.

Meredith is a Certified Genetic Counselor and has a Masters in Genetic Counseling from John Hopkins, a Masters in Biology from Stanford and an undergraduate degree in Biology and Neuroscience & Behavior from Wesleyan University. Recently she has worked at the University of Maryland Medical System.

Meredith can be reached at 301-634-7127 or mweaver@acmg.net. Please join us in welcoming Meredith to ACMG.

Genetics in Medicine Award for Excellence in Publication

In order to encourage genetics trainees in their professional development, *Genetics in Medicine* and The American College of Medical Genetics Foundation are proud to announce a new annual award recognizing an outstanding research publication by an ABMG trainee. The award will consist of a \$1,000 cash prize to the recipient and recognition at the annual meeting of the American College of Medical Genetics. Eligible individuals are ABMG trainees who have been first author or corresponding author on a paper published the preceding calendar year in *Genetics in Medicine*, the official peer-reviewed journal of the American College of Medical Genetics. The award is named for Dr. Richard King in recognition of his instrumental role in creating *Genetics in Medicine* and serving as its first Editor-in-Chief. For more information about this award, go to www.acmg.net.
