

ERRATUM

Growing towards obesity and metabolic syndrome: *from a perspective of systems physiology and nutrition*

International Journal of Obesity (2010) 34, 1230; doi:10.1038/ijo.2010.89

Department of Medicine-Physiology, University of Fribourg,
Switzerland
30 September 2005
3rd Fribourg Obesity Research Conference (FORC)-2005
Organized in association with the
Swiss Cardiovascular Research Training Network
Swiss Association for Study of Obesity
Swiss Society for Nutrition Research
Swiss Physiological Society

Guest Editor: AG Dulloo

Correction: Since the publication of *IJO* (2006) Volume 30 Supplement 4, the editors have identified that disclosure statements for authors who contributed to the supplement were omitted. Through this omission, the supplement did not comply with the National Library of Medicine's policy for conflict of interest disclosure for journal supplements.

We are therefore listing the disclosure statements here below.

Propellers of growth trajectories to obesity and the metabolic syndrome

AG Dulloo, V Antic, Z Yang and J-P Montani
Int J Obes 30: S1–S3; doi:10.1038/sj.ijo.0803512

Conflict of interest

The authors declare no conflict of interest.

Obesity during growth in Switzerland: role of early socio-cultural factors favouring sedentary activities

PM Suter and N Ruckstuhl
Int J Obes 30: S4–S10; doi:10.1038/sj.ijo.0803513

Conflict of interest

The authors declare no conflict of interest.

Early adiposity rebound: causes and consequences for obesity in children and adults

MF Rolland-Cachera, M Deheeger, M Maillot and F Bellisle
Int J Obes 30: S11–S17; doi:10.1038/sj.ijo.0803514

Conflict of interest

The authors declare no conflict of interest.

Early growth, and coronary heart disease and type 2 diabetes: experiences from the Helsinki Birth Cohort Studies

JG Eriksson
Int J Obes 30: S18–S22; doi:10.1038/sj.ijo.0803515

Conflict of interest

The authors declare no conflict of interest.

The thrifty 'catch-up fat' phenotype: its impact on insulin sensitivity during growth trajectories to obesity and metabolic syndrome

AG Dulloo, J Jacquet, J Seydoux and J-P Montani
Int J Obes 30: S23–S35; doi:10.1038/sj.ijo.0803516

Conflict of interest

The authors declare no conflict of interest.

Adiposity in children born small for gestational age

L Tappy
Int J Obes 30: S36–S40; doi:10.1038/sj.ijo.0803517

Conflict of interest

The authors declare no conflict of interest.

Developmental origins of obesity: a sympathoadrenal perspective

JB Young
Int J Obes 30: S41–S49; doi:10.1038/sj.ijo.0803518

Conflict of interest

The authors declare no conflict of interest.

Dietary fat and fat types as early determinants of childhood obesity: a reappraisal

K Macé, Y Shakhhalili, O Aprikian and S Stan
Int J Obes 30: S50–S57; doi:10.1038/sj.ijo.0803519

Conflict of interest

The authors declare no conflict of interest.

Weight cycling during growth and beyond as a risk factor for later cardiovascular diseases: the 'repeated overshoot' theory

J-P Montani, AK Viecegli, A Prévot and AG Dulloo
Int J Obes 30: S58–S66; doi:10.1038/sj.ijo.0803520

Conflict of interest

The authors declare no conflict of interest.
