### **Corrigendum: Immune clearance of highly pathogenic SIV infection**

Scott G. Hansen, Michael Piatak Jr, Abigail B. Ventura, Colette M. Hughes, Roxanne M. Gilbride, Julia C. Ford, Kelli Oswald, Rebecca Shoemaker, Yuan Li, Matthew S. Lewis, Awbrey N. Gilliam, Guangwu Xu, Nathan Whizin, Benjamin J. Burwitz, Shannon L. Planer, John M. Turner, Alfred W. Legasse, Michael K. Axthelm, Jay A. Nelson, Klaus Früh, Jonah B. Sacha, Jacob D. Estes, Brandon F. Keele, Paul T. Edlefsen, Jeffrey D. Lifson & Louis J. Picker

*Nature* **502**, 100–104 (2013); doi:10.1038/nature12519

The Acknowledgements section of this Letter should have included the following sentence: “We acknowledge the contribution of M. A. Jarvis to the design, construction and initial *in vitro* characterization of all the strain 68.1-derived RhCMV vectors used in this study, including both previously published RhCMV/SIV vectors and a previously unpublished vector expressing an *Mycobacterium tuberculosis* Ag85B–ESAT6 fusion protein, used as a negative control in this study.” S.L.P. and J.M.T. did not reply when asked to approve the wording of this Corrigendum. The HTML version of the paper has been corrected.
