Nature **454**, 776–779 (2008); doi:10.1038/nature07091

In Fig. 3b of this Letter we inadvertently used the wrong images (partial duplicates of images representing *p110 α* ^{-/-} mice) in the panels representing *p110 β* ^{-/-} mice. The corrected Fig. 3b is shown in Fig. 1 of this Corrigendum. The conclusions of the paper are not affected; knocking out either *p110 α* or *p110 β* does not affect the growth of the normal prostate.

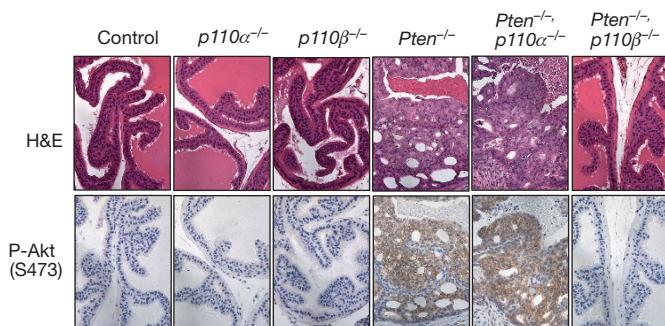

Figure 1 | This figure shows the corrected Fig. 3b of the original Letter.
