This Article contains errors that were introduced during the production process. The control and YAP S127A labels in Fig. 2e,f were inadvertently switched. The black bar should be labelled as control and the red bar should be labelled YAP S127A. The correct version of this figure appears below. In addition, the labels for YAP S127A in Fig. 6e and for ZEB2 in Fig. 6i should appear blue instead of black. The correct version of this figure also appears below.
