

Malar rash caused by metal allergy in a patient with systemic lupus erythematosus

Meghavi Kosboth, Anthony Chin-Loy, Robert Lyons, Stanton K Wesson and Westley H Reeves

Nature Clinical Practice Rheumatology (2007) **3**: 240–245 [doi:10.1038/ncprheum0464]

doi:10.1038/ncprheum0502

ERRATUM

In the April 2007 issue, the following text in the legend of Figure 1 was printed incorrectly:

“**Figure 1** Photographs of the patient’s face.

(A) The patient’s face at presentation to a rheumatology department with her glasses on.

(B) The patient’s face at presentation to a rheumatology department with her glasses off.

(C) The patient’s face 1 month after switching to plastic eyeglass frames.”

The correct legend is reproduced below with the original published figure.

Figure 1 Photographs of the patient’s face. (A) The patient’s face at presentation to a rheumatology department with her glasses on. (B) The patient’s face at presentation to a rheumatology department with her glasses off. (C) The patient’s face 1 month after switching to plastic eyeglass frames.
