

Erratum: Pathogen subversion of cell-intrinsic innate immunity

Craig R Roy & Edward S Mocarski

Nat. Immunol. 8, 1179–1187 (2007); published online 19 October 2007; corrected after print 17 December 2007

In the version of this article initially published, some of the reference numbering in the list and text is incorrect, and a reference is missing. The errors have been corrected in the HTML and PDF versions of the article.

Corrigendum: The MAPK-activated kinase Rsk controls an acute Toll-like receptor signaling response in dendritic cells and is activated through two distinct pathways

Rossana Zaru, Natalia Ronkina, Matthias Gaestel, J Simon C Arthur & Colin Watts

Nat. Immunol. 8, 1227–1235 (2007); published online 30 September 2007; corrected after print 16 November 2007

In the version of this article initially published, the Author Contributions section was incorrect. The correct author contributions are as follows: R.Z. and C.W. designed the study, interpreted the data and wrote the manuscript; R.Z. did the experiments; N.R. and M.G. provided MK2-null mice and generated embryonic stem cells carrying a targeted allele of MK3; J.S.C.A. provided advice and MSK1-MSK2-null mice and generated MK3-null mice from the MK3 embryonic stem cells provided by N.R. and M.G. The error has been corrected in the PDF version of the article.

Corrigendum: Comprehensive epigenetic profiling identifies multiple distal regulatory elements directing transcription of the gene encoding interferon- γ

Jamie R Schoenborn, Michael O Dorschner, Masayuki Sekimata, Deanna M Santer, Maria Shnyreva, David R Fitzpatrick, John A Stamatoyannopoulos & Christopher B Wilson

Nat. Immunol. 8, 732–742 (2007); published online 3 June 2007; corrected after print 16 November 2007

In the version of this article initially published, labels in Figures 2 and 4 are incorrect (as is the relevant text for Figure 4), and a reagent is incorrectly identified in Methods. In Figure 2, the label “IfngCNS+54” should be “IfngCNS+55.” For Figure 4, the primers used to analyze the intronic region of *Ifng* for CpG methylation after bisulfite treatment amplify intron 1; thus, the label above the sixth column in Figure 4a should be “*Ifng* intron 1” and the accompanying text on page 736, column 1, should read “intron 1” on lines 3 and 13. In the Methods section, page 740 column 2, the end of line 23 should read “rabbit immunoglobulin G.” The errors have been corrected in the PDF version of the article.

Corrigendum: Suppression of autoimmune inflammation of the central nervous system by interleukin 10 secreted by interleukin 27-stimulated T cells

Denise C Fitzgerald, Guang-Xian Zhang, Mohamed El-Behi, Zoë Fonseca-Kelly, Hongmei Li, Shuo Yu, Christiaan J Saris, Bruno Gran, Bogoljub Ciric & Abdolmohamad Rostami

Nat. Immunol. 8, 1372–1379 (2007); published online 11 November 2007; corrected after print 28 November 2007

In the version of this article initially published, the initials for the seventh author are incorrect. The correct author name is Christiaan J M Saris. The error has been corrected in the HTML and PDF versions of the article.
