Ultrahigh-resolution ophthalmic optical coherence tomography

WOLFGANG DREXLER, UWE MORGNER, RAVI K. GHANTA, FRANZ X. KÄRTNER, JOEL S. SCHUMAN & JAMES C. FUJIMOTO

Nature Med. 7, 502–507 (2000)

The top panel of Fig. 1 was cut off due to a printing error. The correct figure is shown here.

We regret this error

CORRECTION

Triclosan offers protection against blood stages of malaria by inhibiting enoyl-ACP reductase of *Plasmodium falciparum*.

N. SUROLIA & A. SUROLIA.

Nature Med. 7, 167–173 (2000)

1. Page 167, the sentence beginning 'Cerulein, an antibiotic and a non-competitive inhibitor of fatty acid synthase¹¹...' should cite reference 10 instead of 11.

2. Page 168, the following sentence was inadvertently omitted from the end of the second paragraph:

Mouse lymphocytes exhibited normal morphology and growth patterns in the presence of the drug .

3. Fig. 3d, The fourth bar of the histogram should indicate 8 μm triclosan instead of 18 μm.
