

## Targeting IAP proteins for therapeutic intervention in cancer

Simone Fulda and Domagoj Vucic

*Nature Reviews Drug Discovery* 11, 109–124 (2012)

The chemical structure of the clinical candidate TL32711 in Figure 3 was incorrectly represented. The correct structure of TL32711 is depicted below (Condon, S. M., personal communication). (See also: Condon, S. M., Deng, Y., LaPorte, M. G. & Ripin, S. R. US 2011/0003877). The authors apologize for this unintended error.

The chemical structure of TL32711:
