

**CORRIGENDUM****Stromal PTEN inhibits the expansion of mammary epithelial stem cells through Jagged-1**

GM Sizemore, S Balakrishnan, AM Hammer, KA Thies, AJ Trimboli, JA Wallace, ST Sizemore, RD Kladney, SA Woelke, L Yu, SA Fernandez, A Chakravarti, G Leone and MC Ostrowski

*Oncogene* (2017) 36, 6658; doi:10.1038/onc.2017.347; published online 16 October 2017**Correction to:** *Oncogene* (2017) 36, 2297–2308; doi:10.1038/onc.2016.383; published online 31 October 2016The authors realized after publication that the representative images of PTEN-stained *ErbB2;Pten<sup>fl/fl</sup>* and *ErbB2;Fsp-cre;Pten<sup>fl/fl</sup>* cells shown in Supplementary Figure 3A were both images of thesame field of *ErbB2;Fsp-cre;Pten<sup>fl/fl</sup>* cells. This error has been rectified. This image duplication did not change the quantification shown in Supplementary Figure 3B, which shows no difference in PTEN levels between the two experimental conditions.

The authors apologise for any inconvenience caused by this error.
