

Subject Index to Volume 36

- Abstracts, Latin-American Society for Pediatric Research, 823
- Abstracts, Sociedad Latinoamericana de Endocrinología Pediátrica
1992 meeting, 678
1993 meeting, 685
- Acidemia
congenital lactic, pyruvate dehydrogenase complex activity analysis, 340
isovaleric, carnitine treatment effects, 182
- Acidosis, renal tubular, carnitine palmitoyltransferase I deficiency and, 582
- Aciduria, 3-hydroxydicarboxylic, β -oxidation enzyme levels in, 102
- Adenosine, myocardial effects, during pulmonary hypertension, lamb, 41
- Adolescent, isovaleric acidemia, carnitine and glycine treatment effects, 182
- Adrenocorticotropin, hypopituitarism effects, 215
- Aklyglycerols, immune response effects, lactating rats, 300
- Alzheimer's disease, α_1 -antitrypsin deficiency and, SEC receptor significance, 271
- Amniotic fluid, Clara cell protein levels in, as marker for lung growth, 771
- Anaerobic metabolism, intrauterine oxygen shortage and, fetal lambs, 595
- Androgen insensitivity syndrome, androgen receptor gene mutations, 227
- Anemia of prematurity, fetal hemoglobin levels, 253
- Angiotensin II, gene expression, ontogenic changes and regulation, fetal and newborn life, 755
- Antiviral properties, neutrophils, 792
- Apnea, obstructive, arousal response to tracheal obstruction, 501
- Arousal response, from sleep to obstructive apnea, produced by tracheal obstruction, postnatal maturation, 501
- Artery: *see* specific types
- Ascorbic acid, influence in soy formulas, 811
- Asphyxia, nucleosides and lactate effects, cerebrospinal fluid, fetal lambs, 595
- Ataxia, spinocerebellar, infantile onset, etiology, 607
- ATP, myocardial effects, during pulmonary hypertension, lambs, 41
- Atrophy, total villous, gliadin and lectin reactivity, light microscopy analysis, 635
- Azathioprine, effects, final height after kidney transplantation, children, 323
- B lymphocytes, marmoset cells and, Epstein-Barr virus, 456
- Bacteria, PCR and DNA hybridization analysis, possible cause of Kawasaki disease, 567
- Bacterial infection, L-selection down-regulation in umbilical cord blood, neonate, 799
- Bacterial pathogens, neutrophil inhibition and, 792
- Basilar artery, vasodilation, effects of maturation, sheep, 25
- Bedding materials, effects on incidence of SIDS, prone-sleeping infants, 7
- Behavior, nonnutritive sucking effects on, preterm infant, 207
- Betamethasone, prenatal exposure, effects on glomerular filtration rate, preterm infant, 578
- Blood, placental, potential use for transfusion, VLBW infant, 90
- Blood cell, formation, molecular analysis, 557
- Blood clotting, analysis, RDS, preterm infant, 647
- Blood flow
cerebral
measurement of, Doppler ultrasound and electromagnetic flowmetry 601,
subarachnoid hematoma effects, neonate, 589
left ventricular output and, ultrasonographic assessment, neonate, 805
placental, uterine driving force effects on, 102
pulmonary, oxygen effects, bradykinin release and, fetal lambs, 474
velocity, mesenteric, neonate, 334
- Blood pressure, sucrose effects on, rat pups, 95
- Blood volume
cerebral, responses to carbon dioxide, near infrared spectrophotometry detection, 20
changes, Cesarean section, 506
- Body temperature, heat shock proteins function, 1
- BPD: *see* Bronchopulmonary dysplasia
- Bradycardia, preterm infant, nonnutritive sucking effects on, 207
- Bradykinin receptor blockade, effects, pulmonary vasodilation, fetal lambs, 474
- Brain, creatine deficiency, treatment strategies, 409
- Bronchopulmonary dysplasia
dexamethasone treatment, preterm RDS infant, 122
preterm infant, IL-6 activity effects on, 244
- Calcium channel blocker, myogenic response in large pulmonary artery effects, 34
- Calcium metabolism, analysis, VLBW infants, 424
- Calpain, erythrocyte, glycine and carnitine treatment for isovaleric acidemia, 182
- Candida albicans* infection, risk factors and description, presidential address, 692
- Carbon dioxide, cerebrovascular responses to, near infrared spectrophotometry detection, 20
- Cardiorespiratory behavior, during sleep, preterm infant, 738
- Cardiotoxicity, epinephrine-related catecholamines effects, newborn pig, 49
- Carnitine, depletion, effects on palmitate oxidation, exercise capacity and nitrogen balance, 283
- Carnitine palmitoyltransferase I deficiency, distal renal tubular acidosis and, 582
- Carotid artery, vasodilation, effects of maturation, sheep, 25
- Ca⁺ transport, in plasma membranes, placental syncytiotrophoblast, 461
- Celiac disease, gliadin and lectin reactivity, light microscopy analysis, total villous atrophy, 635
- Cell function, coping with stress and heat shock proteins, 1
- Cell injury, oxidative, and cystic fibrosis, 487
- Cellular metabolism, renal cell injury effects, 129

- Cerebral energy failure, after
hypoxia-ischemia, magnetic
resonance spectroscopy analysis,
699
- Cerebrospinal fluid, surgery and asphyxia
effects on nucleosides and lactate
in, fetal lambs, 595
- Cerebrovascular response, carbon dioxide,
near infrared spectrophotometry
detection, 20
- Cesarean section, renal function and blood
volume changes, 506
- Children
cystic fibrosis, and oxidative cell injury,
487
final height after kidney transplant, 323
short-bowel syndrome, glutamine
metabolism, 202
spinal muscular atrophy and craniofacial
morphology, 265
Zellweger syndrome, impaired
degradation of prostaglandin and
thromboxane, 449
- Chorionic villus biopsy, biochemical
analysis, collagen disorder
indicator, prenatal diagnosis, 441
- Chromosome 3q13, localization,
significance in hypoparathyroidism,
414
- Clara cell protein, levels, amniotic fluid,
role, marker of fetal lung growth,
771
- Cobalamin, deficiency, indicators of,
infants, 194
- Collagen disorders, prenatal diagnosis, 441
- Colon, ion transport, regulation of,
newborn piglet, 144
- Connexins, cardiac, expression, infant and
fetus, 561
- Corticotropin-releasing hormone,
hypopituitarism effects, 215
- Craniofacial morphology, spinal muscular
atrophy and, children, 265
- Creatine deficiency, in brain, treatment
strategies, 409
- Cyclic GMP, vasodilation, in carotid and
basilar arteries, effects of
maturation, sheep, 25
- Cystic fibrosis
insulin response to glucose and
hyperglycemic clamp, 667
oxidative cell injury and, 487
transmembrane conductance regulation,
localization of, fetus, 137
- Cystinosis, infantile, leukotriene generation
in leukocytes, 628
- Cytochrome oxidase, disruption of activity,
perinatal stroke, rat, 12
- Development: *see under* Growth and
development
- Developmental disability, toluene effects
on, 811
- Dexamethasone
chronic lung disease treatment,
surfactant components, preterm
infant, 387
RDS treatment, preterm infant, 122
- Dioxins, thyroid hormone effects, pregnant
women and infants, 468
- Diuretics, congenital heart disease,
malabsorption and, 545
- DNA hybridization, role, detecting cause
of Kawasaki disease, 567
- Donohue syndrome, IGF-I effects, 749
- Doppler ultrasound, cerebral blood flow
measurement, 601
- Dysmorphic features, leprechaunism and,
IGF-I effects, 749
- Education, residency programs, research
reflections and, 687
- Electromagnetic flowmetry, cerebral blood
flow measurement, 601
- Embryonic development, toluene effects,
rat, 811
- Endothelin-1, developmental effects on
pulmonary circulation, sheep, 394
- Enteral nutrition, effects on leucine
kinetics and fuel utilization, preterm
infants, 429
- Enterocolitis, necrotizing, bacterial
adherence and intestinal
colonization and, infant rabbit, 115
- Enterocytes, glucose, galactose and
glutamine metabolism in, during
development, 175
- Enzymes, levels, bone marrow transplant
effects, mice, 187
- Epidermal barrier function, semipermeable
dressing and, preterm infant, 306
- Epidermal growth factor, pneumocyte
proliferation, tyrosine kinase and,
481
- Epstein-Barr virus, lymphoma formation in
marmoset cells, 456
- Erythrocytes, transcription, hemoglobin
synthesis and, 419
- Erythropoiesis, serum transferrin receptor
levels, VLBW infant, 85
- Exercise capacity, carnitine depletion
effects on, 283
- Extrapyramidal movement disorder,
creatine deficiency and, treatment
strategies, 409
- Extrathoracic pressure, negative, effects on
respiratory mechanics, neonate, 364
- Failure to thrive
congenital heart disease and,
malabsorption effects, 545
leprechaunism and, IGF-I effects, 749
- Familial disorders
androgen insensitivity syndrome,
androgen receptor gene mutations,
227
growth hormone deficiency type IA,
genetic analysis, 654
- Leigh's encephalomyelopathy, pyruvate
dehydrogenase deficiency and,
genetic analysis, 707
- Fatty acid, unsaturated, effects on release
of free radicals, rat, 278
- Fetus
angiotensin II gene expression,
ontogenic changes and regulation,
755
cerebrospinal fluid, effects of surgery
and asphyxia on nucleoside and
lactate levels, fetal lambs, 595
cystic fibrosis transmembrane
conductance regulation, localization
of, 137
development, toluene effects, rat, 811
growth and development, procollagen
levels in umbilical cord blood as
marker, 71
heart, multiple gap junction protein
expression, 561
left ventricular output determinants, in
utero ventilation, 373
pancreas, developmental gene
expression, 537
pulmonary vasodilation,
oxygen-mediated, bradykinin
receptor blockade effects, lambs,
474
serum levels, IGF radioimmunoassay
measurement, 528
- Fibrinolysis, analysis, RDS, preterm infant,
647
- Fibrinolytic system, analysis of, hemolytic
uremic syndrome, 257
- Fibroblast, levels, leukocytes and
fibroblasts, 683
- Flow cytometry, whole blood assay,
recombinant human
granulocyte-macrophage colony
stimulating factor effects, on
respiratory burst activity, preterm
infant, 623
- Formula, infant: *see also* Nutrition
casein and whey predominant, gastric
emptying rates, preterm infant, 329
- Free radical activity, lipid peroxidation
and, preterm infants, 55
- Free radicals, release, unsaturated fatty
acid effects on, rat, 278
- Fructose metabolism disorder, ³¹P
magnetic resonance spectroscopy,
estimation of
phosphorus-containing compounds
in liver, 436
- Fuel utilization, enteral *versus* parenteral
feeding effects on, preterm infants,
429
- Galactose, levels in enterocytes, during
development, 175
- Gastric emptying, smooth muscle
contraction immaturity and, preterm
infant, 642

- Gastric emptying, rates, casein and whey formulas, preterm infants, 329
- Gastrointestinal tract
developmental changes, 175
Saccharomyces boulardii trophic effects, polyamine release, 522
- Gene expression
angiotensin II, ontogenic changes and regulation, fetal and newborn life, 755
fetal pancreas, 537
steroidogenic enzyme gene, congenital adrenal hyperplasia, 660
- Genetic analysis
androgen receptor gene mutations, 227
congenital adrenal hyperplasia, 660
growth hormone deficiency type IA, 654
hypoparathyroidism, chromosome 3q13, 414
Leigh's encephalomyelopathy and pyruvate dehydrogenase deficiency, 707
prenatal, collagen disorder, chorionic villus biopsy biochemical analysis, 441
spinocerebellar ataxia, infantile onset, 607
- Genistein, growth factor-stimulated pneumocyte proliferation and, 481
- Gestation, diabetic, effects on plasma concentration of protein C, pregnant sheep, 293
- Gestational age, effects, glomerular filtration rate, 578
- Gliadin, reactivity, intestinal mucosa, total villous atrophy, children, 635
- Glomerular filtration rate
betamethasone and indomethacin, prenatal exposure effects, preterm infant, 578
preterm infant, 572
- Glucose, levels in enterocytes, during development, 175
- Glucose production, glucose infusion response, VLBW infants, 550
- Glutamine metabolism
levels in enterocytes, during development, 175
short-bowel syndrome, children, 202
- Glycerol ether lipids, alkylglycerol, effects on immune response, lactating rats, 300
- Glycine, isovaleric acidemia treatment, 182
- Glycoasminoglycan, levels, bone marrow transplant effects, mice, 187
- Gonadotropins, immunoassay measurement of, in urine, 221
- Growth and development
colonic ion transport, newborn piglets, 144
height, after kidney transplantation, children, 323
procollagen levels in umbilical cord blood, marker for growth
fetus, 71
infant, 64
sucrose effects on, rat pups, 95
- Growth factors, pneumocyte proliferation, tyrosine kinase and, 481
- Growth hormone
deficiency, type IA, genetic analysis, 654
replacement therapy, effects on somatotrophic dysfunction, neonatal rats, 315
secretion, growth hormone-releasing hexapeptide effects, infant rat, 169
- Growth hormone-releasing hexapeptide, growth hormone secretion and, infant rat, 169
- Growth retardation, intrauterine
IGF effects, 152
leprechaunism and, IGF-I effects, 749
toluene effects on, 811
- Heart
disease, congenital, diuretic treatment, malabsorption and, 545
multiple gap junction protein expression, fetus and infant, 561
rate, preterm infant, nonnutritive sucking effects on, 207
- Heat shock proteins
function of, 1
renal cell injury and, 129
- Hematoma, subarachnoid, effects on cerebral circulation, neonates, 589
- Hematopoietic microenvironment, molecular analysis, 557
- Hemoglobin
concentrations, IGF-I and IGF binding protein as determinants, 745
fetal, anemia of prematurity and, 253
synthesis, erythroid transcription factor NF-E2 and, 419
- Hemolytic uremic syndrome, fibrinolytic system analysis, 257
- Hemorrhage, subarachnoid, effects on cerebral blood flow, neonate, 589
- Hepatitis, neonatal, α_1 -antitrypsin deficiency and, 271
- Hepatitis B virus, mutant, genetic analysis, 347
- Herpes simplex virus
neutrophil inhibition, 792
PCR and DNA hybridization analysis, possible cause of Kawasaki disease, 567
- HPLC: *see* Chromatography, high performance liquid
- Hyaline membrane disease, nitric oxide effects, preterm lamb, 402
- Hyperglycemia, leprechaunism and, IGF-I effects, 749
- Hyperglycemic clamp, glucose and, insulin response, cystic fibrosis, 667
- Hyperoxia
exposure, retinopathy of prematurity, newborn rat, 724
unsaturated fatty acids and, effects on release of free radicals, rat, 278
- Hyperphenylalaninemia, RDS and, preterm infant, 713
- Hyperplasia, congenital adrenal, genetic analysis, 660
- Hypertension
pulmonary
endothelin-1 developmental effects on pulmonary circulation, sheep, 394
myocardial effects of ATP and adenosine during, lambs, 41
sucrose effects on, rat pups, 95
- Hyperthyroidism, delayed lung maturation and, mice, 380
- Hypoglycemia
adrenal tyrosine hydroxylase effects, neonate stress and, 719
glucose production response to glucose infusion, VLBW infants, 550
- Hypoparathyroidism, chromosome 3q13 localization, significance, 414
- Hypopituitarism, adrenocorticotropin and corticotropin-releasing hormone effects, 215
- Hypothyroidism, delayed lung maturation and, mice, 380
- Hypoxia
adrenal tyrosine hydroxylase effects, neonatal stress, 719
ATP and adenosine myocardial effects during, lambs, 41
exposure, retinopathy of prematurity, newborn rat, 724
IUGR and, insulin-like growth factor effects on, 152
- Hypoxia-ischemia, cerebral energy failure, magnetic resonance spectroscopy analysis, 699
- IgA, regulatory effects, reactive oxygen intermediates, neutrophils and monocytes, 235
- IGF: *see* Insulin-like growth factor
IGF-I: *see* Insulin-like growth factor
IL-6: *see* Interleukin-6
- Immune response, alkylglycerol effects, lactating rats, 300
- Immunoassay, gonadotropin measurement in urine, 221
- Immunofluorometric assay, gonadotropin measurement in urine, 221
- Immunoradiometric assay, gonadotropin measurement in urine, 221
- Inborn error of metabolism, creatine deficiency in brain, treatment strategies, 409
- Indomethacin, prenatal exposure, effects on glomerular filtration rate, preterm infant, 578
- Infant: *see also* Neonate
cobalamin deficiency, indicators of, 194

- growth and development, procollagen levels in umbilical cord blood as marker, 64
- growth hormone-releasing hexapeptide effects, growth hormone secretion, rat, 169
- heart, multiple gap junction protein expression, 561
- IGF-I, nutrition modulation, postnatal pig, 77
- intestinal circulation changes, first week of life, 334
- preterm
- anemia of prematurity, fetal hemoglobin levels and, 253
 - BPD development, IL-6 effects on, 244
 - cardiorespiratory behavior during sleep, 738
 - casein and whey formulas, gastric emptying rates, 329
 - chronic lung disease, dexamethasone treatment, surfactant components, 387
 - enteral *versus* parenteral feeding effects on leucine kinetics and fuel utilization, 429
 - epidermal barrier function, semipermeable dressing effects, 306
 - free radical activity, 55
 - gastric emptying and smooth muscle contraction immaturity, 642
 - hyaline membrane disease, nitric oxide effects, lamb, 402
 - nonnutritive sucking, behavioral and physiological effects, 207
 - organized sleep states and, 732
 - plasma xanthine oxidase activity and lipid hydroperoxide levels, 283
 - prenatal exposure to betamethasone and indomethacin, effects on glomerular filtration rate, 578
 - renal function, 572
 - respiratory burst activity, flow cytometry assay, 623
 - retinopathy of prematurity, hypoxia and hyperoxia effects, 724
- preterm, RDS
- dexamethasone treatment, 122
 - phenylalanine kinetics, 713
 - plasma clotting, fibrinolysis, and kinin-kallikrein analysis, 647
- short-bowel syndrome, glutamine metabolism effects, 202
- SIDS, prone sleeping position and bedding materials effects on incidence of, 7
- spinocerebellar ataxia, etiology, 607
- thyroid hormone, dioxins and polychlorinated biphenyls effects, 468
- very low birth weight
- calcium metabolism analysis, 424
 - glucose production response to glucose infusion, 550
 - placental blood used for transfusion, 90
 - serum transferrin receptor levels, 85
- Infection
- bacterial, L-selection down-regulation in umbilical cord blood, neonate, 799
 - hepatitis B virus, genetic analysis, 347
 - microbial, aklyglycerol effects, lactating rats, 300
 - neonate, PMN and, 60 α_1 -Antitrypsin, protection, against pulmonary vascular and parenchymal effects, oxygen toxicity, 763
- Insulin resistance, leprechaunism and, IGF-I effects, 749
- Insulin response, glucose and hyperglycemic clamp, cystic fibrosis, 667
- Insulin-like growth factor
- intrauterine growth retardation and, 152
 - levels, serum and milk during lactation, 159
- Insulin-like growth factor-I and IGF binding protein as determinants, blood hemoglobin concentrations, 745
- leprechaunism effects, 749
- nutritional modulation, postnatal pig, 77
- Insulin-like growth factors-I, radioimmunoassay measurement, fetal serum, 528
- Interleukin-6, effects, bronchopulmonary dysplasia development, preterm infant, 244
- Intestinal ion transport, regulation of, newborn piglet, 144
- Intestinal mRNA transcripts, PCR analysis during development, 514
- Intestinal mucosa
- gliadin and lectin reactivity, total villous atrophy, light microscopy analysis, 635
 - small, developmental characteristics, piglet, 175
- Intrauterine growth retardation: *see* Growth retardation, intrauterine
- Ion transport, colonic, regulation of, newborn piglet, 144
- Iron bioavailability, influence of phytic acid and ascorbic acid in soy formulas, 816
- Iron status, VLBS infant, serum transferrin receptor levels, 85
- Ischemia
- cerebrospinal fluid and, measurement of blood flow velocity, 601
 - disruption of cytochrome oxidase activity during, perinatal rat, 12
 - renal cell injury, cellular metabolism effects, 129
- Ischemia-reperfusion injury, plasma xanthine oxidase activity and lipid hydroperoxide levels, preterm infant, 283
- Isovalerylcarnitine, isovaleric acidemia treatment effects, 182
- IUGR: *see* Growth retardation, intrauterine
- Kawasaki disease, PCR and DNA hybridization techniques to detect possible infectious cause, 567
- Kinin-kallikrein, analysis, RDS, preterm infant, 647
- L Lactation
- aklyglycerol effects on immune response, 300
 - IGF levels during, 159
- Lectin, reactivity, total villous atrophy, light microscopy analysis, 635
- Left ventricular output, increased, determinants of, in utero ventilation, 373
- Leigh's encephalomyelopathy, pyruvate dehydrogenase deficiency and, genetic analysis, 707
- Leprechaunism, IGF-I effects, 749
- Leucine kinetics, enteral *versus* parenteral nutrition effects, preterm infant, 429
- Leukocytes
- leukotriene generation in, infantile cystinosis, 628
 - polymorphonuclear
 - impaired leukotriene B₄ release, neonate, 60
 - superoxide anion release, during periparturition period, 619
 - uridine diphosphate hexose levels, 683
- Leukotriene generation, in leukocytes, infantile cystinosis, 628
- Lipid hydroperoxide, levels, ischemia-reperfusion injury, preterm infant, 283
- Lipid peroxidation, free radical activity and, preterm infants, 55
- Liver disease, α_1 -antitrypsin deficiency and, SEC receptor significance, 271
- Lung: *see also under* Pulmonary
- Lung disease
- chronic, dexamethasone treatment, surfactant components, preterm infant, 387
 - dexamethasone treatment to prevent RDS, preterm infant: *see* Respiratory distress syndrome
- Lung growth, fetal, Clara cell protein levels in amniotic fluid as marker of, 771
- Lung maturation, delayed, hypothyroid mouse, 380
- Lymphocytes, marmoset cells and, Epstein-Barr virus, 456

- Magnetic resonance spectroscopy, cerebral energy failure, after hypoxia-ischemia, 699
- Malabsorption, congenital heart disease infants, diuretic treatment and, 545
- Malocclusion, spinal muscular atrophy and craniofacial morphology and, 265
- Marmoset cells, lack of lymphoma formation, Epstein-Barr virus, 456
- Meconium aspiration syndrome, surfactant therapy and jet ventilation, 494
- Mesenteric circulation, neonate, 334
- Metabolism, sucrose effects on, rat pups, 95
- Microscopy, light, gliadin and lectin reactivity analysis, total villous atrophy, 635
- Mitochondrial β -oxidation, 3-hydroxydicarboxylic aciduria and, 102
- Monocytes, IgA regulatory effects, reactive oxygen intermediates, 235
- Mothers, diabetic, neonatal thrombosis and protein C deficiency, 293
Mucopolysaccharidosis type VII, bone marrow transplant effects on enzyme and glycosaminoglycan levels, mice, 187
- Multiple gap junction proteins, expression, fetal and infant heart, 561
- Myocardial damage, catecholamine-induced, heart rate effects, newborn pig, 49
- Myocardial effects, ATP and adenosine during pulmonary hypertension, lambs, 41
- Myogenic response, large pulmonary artery, and ontogenesis, 34
- Na^+/Ca^+ transport, in plasma membranes, placental syncytiotrophoblast, 461
- Natriuresis, transient, Cesarean section, 506
- Neonate: *see also* Infant
acute bacterial infection, L-selection down-regulation in umbilical cord blood, 799
angiotensin II gene expression, ontogenic changes and regulation, 755
left ventricular output determinants, in utero ventilation and, 373
leukotriene B₄, impaired, neonatal polymorphonuclear leukocytes and, 60
lung maturation, delayed, mice, 380
mesenteric blood flow velocity, 334
myocardial damage, catecholamine-induced, heart rate effects, newborn pig, 49
myocardial effects of ATP and adenosine during pulmonary hypertension, lamb, 41
necrotizing enterocolitis, intestinal bacterial adherence and, 115
RDS, negative extrathoracic pressure effects on respiratory mechanics, 364
renal function analysis, 572
somatotrophic dysfunction, growth hormone replacement therapy effects, rats, 315
stress, hypoglycemia and hypoxia effects, adrenal tyrosine hydroxylase, 719
stroke, disruption of cytochrome oxidase activity during, rat, 12
subarachnoid hematoma, effects on cerebral blood flow, 589
thrombosis, protein C deficiency and, 293
- Neurologic disorders, cobalamin deficiency as cause, indicators, 194
- Neutrophils
antiviral properties, 792
IgA regulatory effects, reactive oxygen intermediates, 235
- Nitric oxide, effects, hyaline membrane disease, preterm lambs, 402
- Nitric oxide synthase inhibition, effects, during group B streptococcal sepsis, neonatal pig, 776
- Nitrogen balance, carnitine depletion effects on, 283
- Nutrition: *see also* Formula, infant
cobalamin deficiency, indicators of, infant, 194
enteral *versus* parenteral, effects on leucine kinetics and fuel utilization, preterm infants, 429
modulation, IGF-I, postnatal pig, 77
- β -Oxidation, peroxisomal pathway, impaired degradation of prostaglandin and thromboxane, 449
- Oxidative cell injury, cystic fibrosis and, 487
- Oxygen
pulmonary vasodilation and, bradykinin release, fetal lambs, 474
saturation, preterm infant, nonnutritive sucking effects on, 207
toxicity, pulmonary vascular and parenchymal effects, α_1 -antitrypsin protection against, 763
- Pacifier use, behavioral and physiological effects, preterm infant, 207
- Palmitate oxidation, carnitine depletion effects on, 283
- Pancreas, developmental gene expression, fetus, 537
- Parenteral nutrition, effects on leucine kinetics and fuel utilization, preterm infants, 429
- Parvovirus, PCR and DNA hybridization analysis, possible cause of Kawasaki disease, 567
- PCR: *see* Polymerase chain reaction
- Peroxidation, lipid, free radical activity and, preterm infants, 55
- Peroxisomal pathway, β -oxidation, impaired degradation of prostaglandin and thromboxane, 449
- Phenylalanine kinetics, RDS, preterm infant, 713
- Phytic acid, influence in soy formulas, 816
- Pituitary dysfunction, adrenocorticotropin and corticotropin-releasing hormone effects, 215
- Placental blood, transfusion potential, effects of storage, 90
- Placental blood flow, uterine driving force effects on, 102
- Placental syncytiotrophoblast, Na^+/Ca^+ transport in plasma membranes, 461
- Plasma creatinine, concentration, preterm infant, 572
- Plasma xanthine oxidase activity, ischemia-reperfusion injury, preterm infant, 283
- PMN: *see* Leukocytes, polymorphonuclear
- Pneumonia, group B streptococcal, surfactant effects on bacterial proliferation, 784
- Polyamines, *Saccharomyces boulardii* and intestinal enzyme expression, 522
- Polychlorinated biphenyls, effects on thyroid hormone, pregnant women and infants, 468
- Polymerase chain reaction
androgen receptor gene analysis, 227
intestinal mRNA transcripts analysis during development, 514
role, detecting cause of Kawasaki disease, 567
- Prednisone, effects, final height after kidney transplantation, children, 323
- Pregnancy
thyroid hormone, dioxins and polychlorinated biphenyls effects, 468
toluene abuse during, developmental effects, 811
- Prenatal diagnosing, collagen disorder, chorionic villus biopsy biochemical analysis, 441
- Presidential address
American Pediatric Society, 1994: Reflections on Research: A Call to Arms, 687
Society for Pediatric Research, 1994: Yeast as Metaphor, 692
- Procollagen, type III, aminoterminal propeptide, cord blood fetus, 71

- infant, 64
 Prone sleeping position, bedding and, effects on incidence of SIDS, 7
 Prostaglandin, degradation, Zellweger syndrome, 449
 Protein C, plasma concentration, diabetic gestation effects, sheep, 293
 Pulmonary: *see also under Lung*
 Pulmonary artery, myogenic response, and ontogenesis, 34
 Pulmonary circulation, endothelin-1 developmental effects, sheep, 394
 Pulmonary vascular effects, oxygen toxicity, α_1 -antitrypsin protection, 763
 Pulmonary vascular resistance, nitric oxide effects, hyaline membrane disease, preterm lamb, 402
 Pulmonary vasodilation, oxygen-mediated, bradykinin receptor blockade effects, fetal lambs, 474
 Pyruvate dehydrogenase complex, analysis, congenital lactic acidemia, 340
 Pyruvate dehydrogenase deficiency, Leigh's encephalomyelopathy and, genetic analysis, 707
 Radioimmunoassay, IGF ontogeny, fetal serum, 528
 RDS: *see* Respiratory distress syndrome
 Renal anomalies, toluene effects on, 811
 Renal cell injury, cellular metabolism effects, 129
 Renal failure, final height after kidney transplantation, 323
 Renal function
 changes, Cesarean section, 506
 preterm infant, 572
 Resection, small bowel, glutamine metabolism effects after, children and infants, 202
 Respiratory burst, neutrophil, recombinant human granulocyte-macrophage colony stimulating factor, whole blood flow cytometry assay, preterm infant, 623
 Respiratory distress syndrome
 dexamethasone treatment, preterm infant, 122
 meconium aspiration and, surfactant therapy and jet ventilation, 494
 negative extrathoracic pressure effects on respiratory mechanics, neonate, 364
 phenylalanine kinetics, preterm infants, 713
 plasma clotting, fibrinolysis, and kinin-kallikrein analysis, preterm infant, 647
 Respiratory function, spinal muscular atrophy and craniofacial morphology and, 265
 Respiratory mechanics, negative extrathoracic pressure effects, RDS, neonate, 364
 Respiratory mucosa, cystic fibrosis transmembrane conductance regulation, fetus, 137
 Retinopathy of prematurity, hypoxia and hyperoxia exposure effects, newborn rat, 724
Saccharomyces boulardii, HPLC analysis, trophic effects on small intestinal mucosa, 522
 Sandwich enzyme immunoassay, gonadotropin measurement in urine, 221
 SEC receptor, α_1 -antitrypsin deficiency and Alzheimer's disease relation, 271
 Severe combined immunodeficiency, Epstein-Barr virus, marmoset cells lack of lymphoma formation, 456
 Short-bowel syndrome, glutamine metabolism, 202
 SIDS: *see* Sudden infant death syndrome
 Skin permeability, preterm infant, transepidermal water loss and, semipermeable dressings for, 306
 Sleep
 arousal response, tracheal obstruction, postnatal maturation, 501
 cardiorespiratory behavior during, preterm infant, 738
 Sleep state, organized, preterm infants, 732
 Sleeping position, prone, effects on incidence of SIDS, 7
 Smooth muscle contraction, immaturity, gastric emptying and, preterm infant, 642
 Somatotrophic function, growth hormone replacement therapy effects, neonatal rats, 315
 Spectrophotometry, near infrared, cerebrovascular response to carbon dioxide monitoring, 20
 Spectroscopy
 magnetic resonance, inborn error of creatine biosynthesis, treatment strategies, 409
 ^{31}P magnetic resonance, phosphorus-containing compound estimation in liver, fructose metabolism disorders, adults, 436
 Spermine, endoluminal release, *Saccharomyces boulardii* trophic effects, 522
 Spinal muscular atrophy, craniofacial morphology, 265
 Streptococcus, group B
 nitric oxide synthase inhibition effects, neonatal pig, 776
 pneumonia, surfactant effects on bacterial proliferation, 784
 Stroke, perinatal, disruption of cytochrome oxidase activity during, rat, 12
 Sucking, nonnutritive, behavioral and physiological effects, preterm infant, 207
 Sucrose, growth, blood pressure and metabolism effects, rat pups, 95
 Sudden infant death syndrome, bedding role in, prone-sleeping infants, 7
 Superoxide anion, release, PMN mediated, during peripartal period, 619
 Surfactant
 components, dexamethasone treatment, chronic lung disease, preterm infants, 387
 effects, bacterial proliferation, group B streptococcal pneumonia, 784
 Surfactant therapy, meconium aspiration syndrome, 494
 Surgery, nucleosides and lactate effects, cerebrospinal fluid, fetal lambs, 595
 Syndrome: *see* specific types
 Tachycardia, epinephrine-related cardiotoxicity effects on, newborn pig, 49
 Testosterone, blood hemoglobin concentrations, 745
 Thiamine, congenital lactic acidemia treatment, 340
 Thrombosis, neonatal, protein C deficiency and, 293
 Thromboxane, degradation, Zellweger syndrome, 449
 Thyroid hormone
 delayed lung maturation effects, mice, 380
 dioxins and polychlorinated biphenyls effects, pregnant women and infants, 468
 Toluene, embryonic development effects, rat, 811
 Transferrin receptor, serum, levels, VLBW infant, 85
 Transforming growth factor, pneumocyte proliferation, tyrosine kinase and, 481
 Transfusion, placental blood, effects of storage, 90
 Transplant, bone marrow, enzyme and glycoasminoglycan levels effects, mice, 187
 Transplantation, kidney, final height after, 323
 Tumor necrosis factor- α , effects, bronchopulmonary dysplasia development, preterm infant, 244
 Tyrosine kinase, growth factor-stimulated pneumocyte proliferation and, 481
 Tyrphostin, growth factor-stimulated pneumocyte proliferation and, 481
 Ultrasonography, blood flow and left ventricular output, neonate, 805

- Umbilical cord blood
 IGF-I radioimmunoassay measurement, 528
 procollagen propeptide levels, growth rate marker
 fetus, 64
 infant, 64
 L-selection down-regulation in, during acute bacterial infection, neonate, 799
- Uridine diphosphate hexose, levels, white blood cells and fibroblasts, 683
- Urine sampling, gonadotropin measurement, immunoassay, 221
- Vasodilation
 carotid and basilar arteries, effects of maturation, sheep, 25
 subarachnoid hematoma effects, neonate, 589
- Ventilation
 high-frequency jet, meconium aspiration syndrome, 494
 mechanical
 chronic lung disease, surfactant components, preterm infant, 387
 hyaline membrane disease, nitric oxide effects, 402
 in utero, increased left ventricular output determinants, 373
- Viral resistance, extrinsic, neutrophil inhibition and, 792
- Viremia, hepatitis B virus infection, genetic analysis, 347
- Vitamin E, unsaturated fatty acids and, effects on release of free radicals, rat, 278
- VLBW: *see* Infant, very low birth weight
- von Willebrand factor, hemolytic uremic syndrome and, 257
- Water content, total body, measurement, malabsorption effects, congenital heart disease infants, 545
- Water loss, transepidermal, epidermal barrier function, preterm infant, 306
- Wound healing, preterm infant, semipermeable dressing, effects on epidermal barrier function, 306
- Yeast infections, risk factors and description, presidential address, 692
- Zellweger syndrome, prostaglandin and thromboxane impaired degradation, children, 449

STATEMENT OF OWNERSHIP MANAGEMENT AND CIRCULATION (Required by 39 U.S.C. 3685)

1. Title of publication: PEDIATRIC RESEARCH; 2. Publication no.: 0031-3998
3. Date of filing: 10-01-94; 4. Frequency of issue: Monthly; 5. No. of issues published annually: 12; 6. Annual subscription price: \$142.00 (\$75.00 members). 7. Complete mailing address of known office of publication: 428 E. Preston Street, Baltimore, MD 21202-3993.
8. Complete mailing address of the headquarters or general business offices of the publisher: 428 E. Preston Street, Baltimore, MD 21202-3993.
9. Full names and complete mailing address of publisher, editor, and managing editor: Publisher: Williams & Wilkins, 428 E. Preston Street, Baltimore, MD 21202-3993; Editor: George Lister, M.D., Editor, Yale University School of Medicine, 333 Cedar Street, P.O. Box 208064, New Haven, CT 06520-8064. Managing Editor: Lisa M. DeLizio, Managing Editor, Yale University School of Medicine, 333 Cedar Street, P.O. Box 208064, New Haven, CT 06520-8064.
10. Owner: International Pediatric Research Foundation, Inc., Thomas N. Hansen, M.D., Department of Pediatrics, Baylor College of Medicine, 1200 Moursand Avenue, Houston, TX 77030.
11. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities: None.
12. Purpose, function, and non-profit status: Has not changed during preceding 12 months.
13. Publication Name: PEDIATRIC RESEARCH. 14. Issue Date for circulation data: September, 1994.
15. Extent and nature of circulation: Average number of copies each issue during preceding 12 months: (A) Total no. copies (Net Press Run), 4500. (B) Paid and/or requested circulation: (1) Sales through dealers and carriers, street vendors and counter sales (not mailed), 585; (2) Paid or requested mail subscriptions (include Advertisers Proof Copies/Exchange Copies), 3095. (C) Total paid or requested circulation (sum of 15b1 and 15b2), 3680. (D) Free distribution by mail (samples, complimentary, and other free copies), 43. (E) Free distribution outside the mail (carriers or other means), none. (F) Total free distribution (sum of 15d and 15e), 43. (G) Total distribution (Sum of 15c and 15f), 3723. (H) Copies not distributed: (1) Office use, leftovers, spoiled, 777; (2) Return from news agents, none. (I) Total (sum of 15g, 15h(1), and 15h(2)), 4500. Percent paid and/or Requested Circulation (15c/15g x 100), 98.8%. Actual no. copies of single issue published nearest to filing date: (A) Total no. copies (Net Press Run), 4534. (B) Paid and/or requested circulation: (1) Sales through dealers and carriers, street vendors and counter sales (not mailed), 560; (2) Paid or Requested mail subscriptions (include Advertisers Proof Copies/Exchange Copies), 3427. (C) Total paid and/or requested circulation (sum of 15b1 and 15b2), 3987. (D) Free distribution by mail (samples, complimentary, and other free copies), 41. (E) free distribution outside the mail (carriers or other means), none. (F) Total free distribution (sum of 15d and 15e), 41. (G) Total distribution (sum of 15c and 15f), 4028. (H) Copies not distributed: (1) Office use, leftovers, spoiled, 506; (2) Return from news agents, none. (I) Total (sum of 15g, 15h(1), and 15h(2)), 4534. Percent Paid and/or Requested Circulation (15c/15g x 100), 99.9%.
16. This Statement of Ownership will be printed in the December issue of this publication.
17. I certify that the statements made by me above are correct and complete.

Alma J. Willis
 Publisher
