Correction to: *Journal of Human Genetics*
<https://doi.org/10.1038/s10038-020-00836-3>

The authors of the above paper regret to inform a mistake in the original version. The number of the analyzed parents were not correct in the last paragraph of the “Introduction” and in the first paragraph of “Patients and

their clinical manifestations” part. In both places, the authors described “patients together with parents of two of them”; but actually, it must be “patients together with parents of three of them”. This correction does not affect all of the remaining parts of this paper including the data interpretation and conclusion. The authors would like to apologize for this mistake.
