Correction to: *Genetics in Medicine* <https://doi.org/10.1038/s41436-018-0369-x>; published online 23 November 2018.

In the original published version of Table 2 the number of respondents who said “No” to the question “Does your consent form distinguish between targeted and incidental findings?” was indicated as “4.” It should have read “44.” This has now been corrected in both the PDF and HTML versions of the Article.
