Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-017-01289-7>, published online 02 November 2017

The originally published version of this Article contained errors in Figure 1. In panel c, the grey shading denoting evolutionary conservation and the arrowheads indicating amino acids affected in Snyder-Robinson syndrome were displaced relative to the sequence. These errors have now been corrected in both the PDF and HTML versions of the manuscript.
