The original version of this Article contained an error in the third sentence of the 'Animal studies' section of the Methods, which incorrectly read 'The sheep anesthesia was initiated with ketamine (25 mg kg^{-1}) and then maintained by continuous intravascular (IV) infusion of propofol ($800 \text{ mg kg}^{-1} \text{ h}^{-1}$) during imaging.' The correct version states ' $800 \text{ µg kg}^{-1} \text{ h}^{-1}$ ' in place of ' $800 \text{ mg kg}^{-1} \text{ h}^{-1}$ '. This has been corrected in both the PDF and HTML versions of the article.
