The original version of the manuscript contained errors in Fig. 3, in Supplementary Fig. 14, and in Source Data for Fig. 3c. Original Fig. 3 has now been replaced with the corrected version in the Article file (PDF and HTML versions) and an updated Supplementary Information file and Source Data file have been made available. In detail:

- In Fig. 3b, the image of one mouse (third from left) in the group “G5 FLICs-loaded hydrogel (FRL)” for Day 10 was incorrect and has been replaced with the correct image.
- The above applies also for Supplementary Fig. 14 that contains magnified images of the mice displayed in Fig. 3b.
- The correct bioluminescence value for the mouse above has been taken into account (information updated in the Source Data file for Fig. 3c) and Fig. 3c revised accordingly.

Additional information

Supplementary information The online version contains supplementary material available at <https://doi.org/10.1038/s41467-024-48084-9>.
