Correction to: *Nature Reviews Rheumatology* (2021) <https://doi.org/10.1038/s41584-021-00593-3>, published online 8 April 2021.

In the originally published version of this article there was an error in figure 3. In part b, the colours of the red and green circles within the table were erroneously reversed. The figure has been corrected so that the red circles represent pro-atherogenic effects and the green circles represent anti-atherogenic effects. This error has now been corrected in the HTML and PDF versions of the manuscript.
