

## Author Correction: Determination of isoform-specific RNA structure with nanopore long reads

Jong Ghut Ashley Aw , Shaun W. Lim, Jia Xu Wang , Finnlay R. P. Lambert, Wen Ting Tan, Yang Shen, Yu Zhang , Pornchai Kaewsapsak, Chenhao Li , Sarah B. Ng, Leah A. Vardy , Meng How Tan, Niranjan Nagarajan  and Yue Wan

Correction to: *Nature Biotechnology* <https://doi.org/10.1038/s41587-020-0712-z>, published online 26 October 2020.

In the version of this article initially published online, a second affiliation and an acknowledgment were missing for author Finnlay R. P. Lambert. The author is affiliated with the Division of Biomedical Sciences, Warwick Medical School, University of Warwick, Coventry, UK, and was supported by a doctoral scholarship from the Warwick-A\*STAR research attachment programme. The errors have been corrected in the print, PDF and HTML versions of the article.

## Publisher Correction: First small-molecule drug targeting RNA gains momentum

Cormac Sheridan

Correction to: *Nature Biotechnology* <https://doi.org/10.1038/s41587-020-00788-1>, published online 11 January 2021.

In the version of this article initially published, as a result of an editing error, we said that Spinraza (nusinersen) “requires a child to be pulled from school for a month beforehand to prevent any illness that would render the necessary anesthesia unsuitable for the child.” We should have said that “as this requires anesthesia, reports have circulated that some parents have elected to pull their children from school for a month beforehand to prevent any illness that might compromise the procedure.” The error has been corrected in the PDF and HTML versions of the article.
