**Publisher Correction: Systems NMR: single-sample quantification of RNA, proteins and metabolites for biomolecular network analysis**

Correction to: *Nature Methods* <https://doi.org/10.1038/s41592-019-0495-7>, published online 29 July 2019.

In the version of this Article originally published, owing to a technical error the dash used to denote molecular complexes in equations 3, 5 and 17 was duplicated; the correct notation is ‘protein–RNA complex’ (equations 3 and 17) and ‘Mg–NTP complexes’ (equation 5). In the HTML version of Supplementary Fig. 4, the title should have started “Affinity (as dissociation constant,  $K_D$ )...”. These errors have now been amended in all online versions.
