## Author Correction: Profiling Atlantic salmon B cell populations: CpG-mediated TLR-ligation enhances IgM secretion and modulates immune gene expression

Shiferaw Jenberie<sup>1</sup>, Hanna L. Thim<sup>1</sup>, J. Oriol Sunyer<sup>2</sup>, Karsten Skjødt<sup>3</sup>, Ingvill Jensen<sup>1</sup> & Jorunn B. Jørgensen<sup>1</sup>

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-018-21895-9>, published online 23 February 2018

This Article contains errors in the Results section under subheading ‘IgM+ B cells are the dominating B cell population in salmon kidney, blood and spleen.’

“The IgM+ population constituted about 30% of all leukocytes. In PB and spleen, and had a higher abundance compared to HK and PK (~5–10%).”

should read:

“The IgM+ population constituted about 30% of all leukocytes in PB and spleen, and had a higher abundance compared to HK and PK (~5–10%).”
