Publisher Correction: Post-translational modifications in DNA topoisomerase 2 α highlight the role of a eukaryote-specific residue in the ATPase domain

Claire Bedez¹, Christophe Lotz¹, Claire Batische¹, Arnaud Vanden Broeck¹, Roland H. Stote¹, Eduardo Howard³, Karine Pradeau-Aubretton¹, Marc Ruff¹ & Valérie Lamour^{1,2} 

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-018-27606-8>, published online 18 June 2018

The original version of this Article was published with an incorrect version of the Supplementary Information file due to a technical error.

In addition, two Supplementary Datasets, and a Supplementary Movie showing distribution of acetylation and phosphorylation sites on the Top2 α structural domains were omitted from the original version of this Article.

This has now been corrected in the HTML version of the Article; the PDF version of the paper was correct from the time of publication.
