This Article contains errors.

In the Methods section, under the subheading ‘Quick CSF Analysis’,

“This re-sampling procedure automatically takes into account the covariance structure in the posterior distribution of the CSF parameters, and allows us to assess the precision of the estimated CSF curve³⁰.”

should read:

“This re-sampling procedure automatically takes into account the covariance structure in the posterior distribution of the CSF parameters, and allows us to assess the precision of the estimated CSF curve³⁰.”

In addition, Reference 66 is incorrectly listed as ‘Arena, Hutchinson, Shimozaki & Long Visual discrimination in noise: behavioural correlates of age-related cortical decline. *Behav Brain Res* **243**, 102–8 (2013)’. The correct Reference 66 appears below as Reference¹.
