Author Correction: Seasonal variability of net sea-air CO₂ fluxes in a coastal region of the northern Antarctic Peninsula

Thiago Monteiro , Rodrigo Kerr & Eunice da Costa Machado

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-020-71814-0>, published online 10 September 2020

This Article contains an error in the y-axis label of Figure 5, where the unit of measurement is incorrect.

“FCO₂ (mmol m⁻¹ day⁻¹)” should read: “FCO₂ (mmol m⁻² day⁻¹)”

The correct Figure 5 appears below as Figure 1.

Published online: 09 December 2020

Figure 1. A correct version of the original Figure 5. Monthly averages of net sea-air CO_2 fluxes (FCO_2) in the Gerlache Strait from January 2002 to December 2017 with an inset showing the variability throughout the year to characterize the seasonal cycle of FCO_2 and the percentage of sea ice cover (filled blue bars). The gaps are from years when there was no winter sampling in the region. The blue bars oriented upwards are the standard deviations from the respective monthly averages, as are the black bars in the inset. Positive FCO_2 values represent the outgassing of CO_2 to the atmosphere, whereas negative FCO_2 values represent CO_2 uptake by the ocean.
