Retraction Note: The effect of soil nutrients and moisture during ontogeny on apparent wood density of *Eucalyptus grandis*

Vinicius Resende Castro, Roger Chambi-Legoas, Mario Tommasiello Filho, Paula Gabriella Surdi, José Cola Zanuncio & Antonio José Vinha Zanuncio

Retraction of *Scientific Reports* <https://doi.org/10.1038/s41598-020-59559-2>, published online 13 February 2020

The Editors have retracted this article.

After publication it was brought to the Editors' attention that this article reports data that have previously been published¹, specifically the data for 12, 24 and 36 months shown in Table 1, Table 2 and Figure 2. The Editors therefore consider this article to be redundant.

All authors agree to this retraction.
