Correction to: *Nature Electronics* <https://doi.org/10.1038/s41928-018-0148-3>, published online 12 October 2018.

In the version of this Article originally published, in the Methods section ‘Analytical calculation and FEM simulation’ owing to a technical error, the first equation was incorrect as:

$$K_{\text{eff}} = \frac{S_{\text{eff}} \times T_0}{c}$$

It has now been replaced with the correct equation:

$$\Delta T = \frac{S_{\text{eff}} \times I \times T_c - \frac{1}{2} I^2 \times R_{\text{eff}} - Q_c}{K_{\text{eff}}}$$

In addition, in the section ‘Conclusions’, the packing density mistakenly read ‘5,000 leg pairs per cm²’ and has now been corrected to read ‘5,500 leg pairs per cm²’.
