

WATER WAY TO FLOSS THE TEETH

Delegates visiting the Waterpik stand can find out more about the brand new Waterpik Complete Care system as well

as the new Sensonic Professional Plus sonic toothbrush – both of which will be launched at this year's show.

Visitors to the Waterpik stand will also be able to learn about the numerous studies that have been conducted, proving the effectiveness of Waterpik Water Flossers, and will be able to take part in a very special giveaway competition.

To learn more about the entire range of Waterpik Water Flosser devices, as well as Waterpik International's range of powered toothbrushes, visit the Waterpik stand J05. www.waterpik.co.uk

IN PARTNERSHIP WITH WORLD LEADERS AND YOU

Henry Schein Minerva and their specialist digital and laser division, Dental Innovations, will be focused on supporting your success at this year's Showcase. Henry Schein Minerva have expertise across a complete range of products and services, and the breadth of this offering is reflected in the 12 practice building areas they have identified within the 'support your success' programme. These include decontamination, education, service packages, practice management

software and consumable products.

Henry Schein Minerva works in partnership with the world's leading manufacturers, sourcing the widest variety of consumable products to meet all practice needs. All visitors to the stand will have the opportunity to gain hands-on experience of our laser, imaging and CEREC innovations, as well as speaking with one of our representatives who will be on hand at all times. Visit Henry Schein Minerva on stand Q04.

ESSENTIAL FOR DAILY ORAL CARE

Developed, used and recommended by dental professionals and backed by extensive scientific research, the UltraDEX range delivers fresh breath confidence, whitening maintenance and exceptional oral health, when used as part of a daily oral care regimen. The clinically proven technology is antibacterial, works with the natural oral pH level, releasing the appropriate amount of active ingredient to meet the individual needs of each mouth. UltraDEX eliminates, not simply masks, odour-causing volatile sulphur compounds (VSCs) on contact, lifts organic stains and breaks down bacterial plaque biofilm.

Bacteria cannot become resistant and regrowth is inhibited.

Three exciting new products have joined the UltraDEX range:

- UltraDEX Recalcifying & Whitening Toothpaste, dual powered by SensiShield and iQ+ ActiveOxi Technology
- UltraDEX Wire-Free Interdental Brushes coated with iQ+ ActiveOxi Technology
- UltraDEX Anti-bacterial Coated Interdental Tape, powered by stabilised chlorine dioxide.

UltraDEX Oral Healthcare Kits, which can be personalised with your practice details, are also available.

To obtain samples, book your free UltraDEX webinar training session or find out more visit stand A05 or www.periprod.com.
