

NEW PRODUCTS AND FOCUS ON COSMETIC DENTISTRY

Please send product news information and images to David Westgarth at the *BDJ*, Nature Publishing Group, The Macmillan Building, 4-6 Crinan Street, London, N1 9XW. Product news is provided as a service to readers using text and images from the manufacturer, supplier or distributor and does not imply endorsement by the *BDJ*. Normal and prudent research should be exercised before purchase or use of any product mentioned.

A NEW LEVEL OF EXCELLENCE

Have your skills recognised with the British Academy of Cosmetic Dentistry's (BACD) Accreditation Programme. This is a carefully-designed process which allows BACD members to demonstrate they have reached a high standard of ability. Dentists or technicians who have completed the programme will have shown that they can plan and execute a number of cases safely, ethically and competently.

BACD Accreditation is the gold-standard for any practi-

tioner in the field. The process is challenging, but ensures an enriching experience that will compel you to look at your work in a new way.

Candidates are required to submit clinical cases, then complete a viva examination. The BACD will support you with helpful advice and relevant resources throughout.

Once passed, you can state you are an Accredited Member of the BACD in all marketing material. Your patients will know they are receiving the very best care and your peers will be assured of your credibility.

BACD Accreditation is one example of how joining this fast-growing, forward thinking Academy will take you ahead of the rest.

For further enquiries about the BACD visit www.bacd.com.

INNOVATIVE SOLUTIONS FOR DISABLED PATIENTS

Providing optimal oral hygiene for disabled people is essential. Firstly, it prevents the accumulation of plaque and helps to maintain healthy teeth and gums, and it also enhances an individual's quality of life with dignity and self-esteem.

Tandex has over 80 years' experience and knowledge, designing and producing high quality products for both independent and assisted brushing.

The SOLO range is available in soft, medium, ultra soft and long, with a small brush head, specifically angled neck and a long grooved handle to ensure easy, accurate access for site-specific cleaning.

Tandex FLEXI Interdental Brushes have an ergonomic grip and provide efficient but gentle cleaning of interdental spaces even at the back of the mouth.

You can help to empower a disabled person by recommending innovative and specially developed Tandex toothbrushes – the ideal solution to encourage and assist an effective oral hygiene routine.

For more information on Tandex's range of products, visit www.tandex.dk.

HIGH QUALITY DENTAL UNITS

Clark Dental provides a comprehensive range of high quality dental units from the most prestigious manufacturers. Supplying the latest dental chairs from Anthos, Stern Weber and A-Dec, whatever you're looking for in a dental unit, Clark Dental has the solution.

The extremely reliable manufacturer Anthos is well known for its beautiful dental units that exude quality and style. The range includes a number of chairs that feature the latest technology and dental delivery systems. With over 50 years of pioneering invention and intelligent design, the Stern Weber

range has everything to meet the needs of modern dentistry.

The A-Dec range includes the entry-level Performer, updated A-Dec 300: Evolved, the contemporary A-Dec 400 and the outstanding A-Dec 500 series, which are extremely flexible for superb ergonomics, come in left and right handed models, and optimise operator access whilst enhancing patient comfort.

Clark Dental has the range of products and wealth of experience to help ensure you make the right choice for your practice.
