ERRATUM: Revealing the truth about ‘trapped rainbow’ storage of light in metamaterials

Sailing He, Yingran He & Yi Jin

This Article contains a typographical error in an equation in the Methods section:

“ $\epsilon_1 = \mu_1 = 1 - \omega^2/(\omega_p^2 + i\omega\Gamma)$ ” should read “ $\epsilon_1 = \mu_1 = 1 - \omega_p^2/(\omega^2 + i\omega\Gamma)$ ”.

In addition, the two thin red arrows representing the direction of the wave vector should be reversed in Figure 2a. The correct Figure 2a appears below as Figure 1.
