THE BRITISH JOURNAL OF CANCER.

VOLUME XIII, NO. 4  DECEMBER, 1959

CONTENTS

NASH, F. A.—The Occurrence of Cancer in Husbands and Wives .......................... 577
PHILLIPS, A. J.—The Increase in Lung Cancer Mortality in Canada ....................... 589
MUIR, C. S.—Malignant Disease of the Gastro-intestinal Tract in Singapore .............. 595
WINKELSTEIN, W. Jr., LILIENTHAL, R., PICKEN, J. W. AND LILIENTHAL, A. M.—The Relationship Between Aortic Atherosclerosis and Cancer ........................................ 606
SALM, R.—A Case of Primary Osteogenic Sarcoma of Extraskeletal Soft Tissues .......... 614
KREYBERG, LEIV.—3:4-Benzpyrene in Industrial Air Pollution: Some Reflexions .......... 618
ROE, F. J. C., SALAMON, M. H. AND COHEN, JUNE.—Incomplete Carcinogens in Cigarette Smoke Condensate: Tumour-promotion by a Phenolic Fraction 623
BALÓ, J., KENDREY, G., JUHÁSZ, J. AND BESZNYÁK, I.—Tumour-inhibiting Action of 1,6-Di-(2-Bromoethylamino)-1,6-Dideoxy-D-Mannitol Dihydrobromide [DBM (R13)] 634
SILLER, W. G.—An Osteogenic Sarcoma in the Fowl ............................................. 642
KULLANDER, S.—On a Hormone-dependent Spontaneous, Malignant Ascites Tumour in Rats ........................................................................................................ 647
MARCHANT, JUNE.—Changes in the Ovaries of Mice Treated with Dimethyl-Benzanthracene and Observations on the Subsequent Development of Tumours in Ovaries and Breasts .................................................................... 652
BIANCIFIORI, C., BONSER, G. M. AND CASCHERA, F.—The Influence of Pseudo-pregnancy on the Induction of Mammary Tumours by Methylcholanthrene in Mice of the Balb/c Strain ........................................................................... 662
LAWS, J. O.—Tissue Regeneration and Tumour Development ................................... 669
HEWITT, H. B. AND WILSON, C. W.—The Effect of Tissue Oxygen Tension on the Radiosensitivity of Leukaemia Cells Irradiated In Situ in the Livers of Leukaemic Mice ................................................. 675
DHALIWAL, S. S.—Quantitative Studies with MH2 Reticulo Endothelioma Virus 685
HARTMANN, E.—Investigations of a Factor Found in Certain Normal Tissues Inhibiting Ascites Tumor Growth in the Rat and Mouse ............................................. 693
PEARSON, A. E. G.—Serial Irradiation of Mouse Tumours: Effects on Tumour Establishment Time and Growth Rate ................................................................. 699
ADAMS, D. H.—The Effect of Sarcoma 37 on the Intracellular Distribution of Mouse Liver Catalase .................................................................................................... 704
CALCUTT, G., DOXEY, D. AND COATES, JOAN.—The Effects of some Polycyclic Hydrocarbons on Mouse Liver -SH Levels ................................................................. 711
HARPER, K. H.—The Intermediary Metabolism of Polycyclic Hydrocarbons ............ 718
HARPER, K. H.—The Polycyclic Hydrocarbons: Metabolism, Cellular Binding and Carcinogenesis ........................................................................................................ 732
HARPER, K. H.—Metabolism of 1:2-Benzanthracene in the Rabbit ........................ 746
HUGHES, P. E.—Concerning the Origin of Substituents in Polar-bound Derivatives of 3'-Methyl-4-Dimethylaminoazobenzene ..................................................... 751
ATKIN, N. B., RICHARDS, B. M. AND ROSS, ANGELA J.—The Deoxyribonucleic Acid Content of Carcinoma of the Uterus: an Assessment of its Possible Significance in Relation to Histopathology and Clinical Course, Based on Data from 165 Cases .................................................................................................................. 773
RICHARDS, B. M. AND ATKIN, N. B.—DNA Content of Human Tumours: Change in Uterine Tumours During Radiotherapy and their Response to Treatment 788
INDEX TO AUTHORS .................................................................................................. 801
SURVEY OF PAPERS ................................................................................................. i
