CONTENTS

STAAB, H. J. AND ANDERER, F. A.—Growth of human colonic adenocarcinoma and development of serum CEA in athymic mice. I: Strict correlation of tumour size and mass with serum CEA concentration during logarithmic growth 841

HARVEY, W., QUIER, M. V., DUANCE, V. C. AND PRITCHARD, J.—A biochemical and immunohistological study of collagen synthesis in Ewing's tumour 848

COURTURIER-TURPIN, M. H., COURTURIER, D., NEPVEUX, P., LOUVEL, A., CHAPUIS, Y. AND GUERRE, J.—Human chromosome analysis in 24 cases of primary carcinoma of the large intestine: Contribution of the G-banding technique 856

JONES, A. C., STRATFORD, I. J., WILSON, P. A. AND PECKHAM, M. J.—In vitro cytotoxic drug sensitivity testing of human tumour xenografts grown as multicellular tumour spheroids 870

AGREZ, M. V., KOVACH, J. S. AND LIEBER, M. M.—Cell aggregates in the soft agar "human tumour stem-cell assay" 880

IELSEN, O. S. AND OVERGAARD, J.—Importance of preheating temperature and time for the induction of thermotolerance in a solid tumour in vivo 894

OVERGAARD, J., OVERGAARD, M., IELSEN, O. S., KIRSTEIN PEDERSEN, A. AND TIMOTHY, A. R.—A comparative investigation of nimorazole and misonidazole as hypoxic radiosensitizers in a C3H mammary carcinoma in vivo 904

HAWORTH, C., MORRIS-JONES, P. H. AND TESTA, N. G.—Long-term bone-marrow damage in children treated for ALL: Evidence from in vitro colony assays (GM-CFC and CFU-F) 918

DUNKELBERG, H.—Carcinogenicity of ethylene oxide and 1,2-propylene oxide upon intragastric administration to rats 924

MACKIE, R. M. AND AITCHISON, T.—Severe sunburn and subsequent risk of primary cutaneous malignant melanoma in Scotland 955

Continued on inside back cover
Short Communications

HERITY, B., MORIARTY, M., DALY, L., DUNN, J. AND BOURKE, G. J.—The role of tobacco and alcohol in the aetiology of lung and larynx cancer . 961

ROSCEO, J. P. AND OWSIANKA, A. M.—Alginate: A reversible semi-solid medium for investigating cell transformation . 965

ABRATT, R. P.—A new approach to the use of misonidazole as a radiosensitizer of hypoxic tumour cells . . 976

PALCIC, B., BROSING, J. W. AND SKARGARD, L. D.—Survival measurements at low doses: Oxygen enhancement ratio . . . . 980

FLAVELL, D. J. AND LUCAS, S. B.—Potentiation by the human liver fluke, Opisthorchis viverrini, of the carcinogenic action of N-nitrosodimethylamine upon the biliary epithelium of the hamster . . . . 985

BELFIELD, A. AND SIMMONDS, A. P.—Assessment of action of cis-diamminodichloroplatinum (II) on HeLa cells by different methods detects time-dependence . . . . 990

ROBERTSON, A. G. AND READ, G.—The value of lactate dehydrogenase as a non-specific tumour marker for seminoma of the testis . . . . 994

Letters to the Editor

GILLIS, C. R. AND HOLE, D. J.—Cutaneous melanoma in Scotland . . . 1004

MacKIE, R. M. AND HUNTER, J. A. A.—Reply to letter by Drs Gillis and Hole 1004

Breast Conservation Working Party . . . . . . 1005

KUSE, R., CALAVREZOS, A. AND HAUSMANN, K.—Postchemotherapy staging laparotomy in Hodgkin’s disease . . . . . . 1005

Book Reviews . . . . . . . . . . . . . . . 1007

Announcement . . . . . . . . . . . . . . . 1008
