Contents

Commentary
1 Does human papillomavirus cause cervical cancer? The state of the epidemiological evidence
Munoz, N., Bosch, X. & Kaldor, J.M.

Review
6 Ionizing radiation induced mutagenesis
Breimer, L.H.

Experimental Oncology
19 Mechanisms of organ selective tumour growth by bloodborne cancer cells
Murphy, P., Alexander, P., Senior, P.V., Fleming, J., Kirkham, N. & Taylor, I.

32 Haematogenous dissemination of cells from human renal adenocarcinomas
Glaves, D., Huben, R.P. & Weiss, I.

36 Isolation and preliminary characterisation of cDNA clones representing mRNAs associated with tumour progression and metastasis in colorectal cancer
Elvin, P., Kerr, I.B., McArdle, C.S. & Birnie, G.D.

43 Structure and expression of c-myc and c-fos proto-oncogenes in thyroid carcinomas

48 Reactivity of monoclonal antibodies to oncoproteins with normal rat liver, carcinogen-induced tumours and premalignant liver lesions
Embleton, M.J. & Butler, P.C.

54 Cytotoxicity of 5-(3-methyl-1-triazeno) imidazole-4-carboxamide (MTIC) on mer-, mer" rem- and mer" cell lines: Differential potentiation by 3-acetamidobenzamide
Lunn, J.M. & Harris, A.L.

59 The oncogenic potential of combination of hyperthermia and chemotherapy agents
Komatsu, K., Miller, R.C. & Hall, E.J.

64 Radiation survival of murine and human melanoma cell utilizing two assay systems: Monolayer and soft agar
Yohem, K.H., SlYmen, D.J., Bregman, M.D. & Meyfants, F.L.

70 Antitumour effects of streptococcal lipoteichoic acids on Meth A fibrosarcoma

74 Immunohistochemical localisation of chondroitin sulphate and dermatan sulphate proteoglycans in tumour tissue
Fukatsu, T., Sohne, M., Nagasaka, T., Ohira, N., Fukata, S., Nakashima, N. & Takeuchi, J.

79 Immunohistochemical identification of type 1 procollagen in tumour cells of scirrhous adenocarcinoma of the stomach

83 The effect of tumour growth on liver panthothenate, CoA and fatty acid synthetase activity in the mouse

87 Enzyme imbalance in serum metabolism in human colon carcinoma and rat sarcoma

91 Somatomedin-C insulin-like growth factor-1 is a mitogen for human small cell lung cancer

Clinical Oncology & Epidemiology
94 A randomized trial of maintenance versus no maintenance melphalan and prednisone in responding multiple myeloma patients
Belch, A., Shelley, W., Bergsagel, D., Wilson, K., Klimo, P., White, D. & Willam, A.

100 The treatment of advanced seminoma with chemotherapy and radiotherapy
Wilkinson, P.M., Real, G. & Magee, B.

105 Serum thyroglobulin as a pre-clinical tumour marker in subgroups of thyroid cancer
Thorersen, S.O., Myking, O., Glattre, E., Rootwiller, K., Andersen, A. & Foss, O.P.

109 Who should measure the quality of life, the doctor or the patient?
Slevin, M.L., Plant, H., Lynch, D., Drinkwater, J. & Gregory, W.M.

113 Phase II evaluation of mitozolomide in ovarian cancer
Harding, M., Northcott, D., Smyth, J., Stuart, N.S.A., Green, J.A. & Newlands, E.

115 Tamoxifen in refractory ovarian cancer: The use of a loading dose schedule
Osborne, R.J., Malik, S.J., Slevin, M.L., Harvey, V.J., Spona, J., Saeter, H. & Williams, C.J.

117 Acute hepatic and hepatocellular carcinoma
Kauppinen, R. & Mustajoki, P.

121 Tumour karyotype discriminates between good and bad prognostic outcome in neuroblastoma
Christiansen, J. & Lampert, F.

127 Parental cancer in an unselected cohort of children with cancer referred to a single centre
Thompson, E.N., Dallimore, N.S. & Brook, D.L.
