Contents

Experimental Oncology
445 Characterisation of VP-16-induced DNA cleavage in oestrogen-stimulated human breast cancer cells
Epstein, R.J., Smith, P.J., Watson, J.V. & Bleehen, N.M.

451 Vascular function and the probability of skin necrosis after photodynamic therapy: An experimental study
Benstead, K. & Moore, J.V.

455 Ineffective photodynamic therapy (PDT) in a poorly vascularized xenograft model.
White, L., Gomez, C.J., Doiron, D.R. & Szirth, B.C.

459 Modulation of antifolate cytotoxicity by metabolites from dying cells in a lymphocyte clonal assay
Hughes, J.M., deFazio, A. & Tattersall, M.H.N.

464 Structure and expression of oncogenes in surgical specimens of human breast carcinomas
Biannio, I., Pozzi, M.R., Pierotti, M.A., Pilotti, S., Cuttoretti, G. & Della Porta, G.

469 In vivo emergence of a highly metastatic tumour cell line from a rat rhabdomyosarcoma after treatment with an alkylating agent
Antoine, E., Pawels, C., Verrelle, P., Lascaux, V. & Poupon, M.F.

475 Modulation of type IV collagenase and plasminogen activator in a hamster fibrosarcoma by basement membrane components and lung fibroblasts
Teale, D.M., Khidair, I.A., Potter, C.W. & Rees, R.C.

481 Depression of early phase of HTLV-I infection in vitro mediated by human beta-interferon
D’Onofrio, C., Perno, C.F., Mazzetti, P., Graziani, G., Calio, R. & Bonmassar, E.

489 Conjugation of monoclonal antibodies to a synthetic peptide substrate for protein kinase: A method for labelling antibodies with $^{32}$P

494 Intracapillary HbO$_2$ saturations in murine tumours and human tumour xenografts measured by cryospectrophotometry: Relationship to tumour volume, tumour pH and fraction of radiobiologically hypoxic cells
Rofstad, E.K., Fenton, B.M. & Sutherland, R.M.

Clinical Oncology and Epidemiology
503 The prognostic value of morphometric features and cellular DNA content in cis-platin treated late ovarian cancer patients

509 Immunocytochemical staining of proliferating cells in fine needle aspiration smears of primary and metastatic breast tumours.
Kuonen-Bouwmeester, V., Blonk, D.I. & Van der Kwast, Th.H.

512 A negative phase II trial of methylene dimethane sulphonate in advanced ovarian cancer
Smith, D.B., Lind, M.J., Kave, S.B., Newlands, E.S., Blackledge, G.R.P. & Gibson, A.

514 Cytostatic activity of oxidised tetracycline in vivo: Relevance for the treatment of malignant effusions
Sauter, C.

516 Multiple myeloma – a case-control study
Cuzick, J. & De Stavola, B.

Meeting Report
521 Clinical trial size – the perfect, the practicable and the present. MRC CRC meeting, 26 March 1987
Havtillie, J.

Correspondence
526 Constitutional frequency of rare alleles of c-H-ras in breast cancer patients
White, G.R.M., Heighway, J., Williams, G.T. & Scott, D.
