Guest Editorials
789 Dose intensity in cancer chemotherapy
Dodwell, D.J., Gurney, H. & Thacher, N.

795 Treatment of screen detected DCIS: a silver lining within a grey cloud
Fenitman, I.S.

Experimental Oncology
797 Similar effects on the murine hemopoietic compartment of low dose rate single dose and high dose rate fractionated total body irradiation. Preliminary results after a unique dose of 750 cGy
Girinsky, T., Socie, G., Cosset, J.M., Dutreix, J. & Chassagne, D.

801 Polymorphic epithelial mucin from the sera of advanced breast cancer patients - isolation and partial characterisation
O'Sullivan, C., Price, M.R. & Baldwin, R.W.

809 Studies of the L-myc DNA polymorphism and relation to metastasis in Norwegian lung cancer patients
Tefre, T., Borresen, A-L., Aamdal, S. & Brogger, A.

813 Glycosphingolipid expression on murine L1-fibrosarcoma cells: analysis of clonal in-vivo and in-vitro selected sublines with different lung colonisation potential

821 An immunohistochemical assessment of cellular proliferation markers in head and neck squamous cell cancers
Kearsley, J.H., Furlong, K.L., Cooke, R.A. & Waters, M.J.

Hypothesis
828 Are different events involved in the development of sporadic versus hereditary tumours? The possible importance of the microenvironment in hereditary cancer
Parakova, C. & Williams, A.C.

Experimental Oncology (contd.)
831 Colonial morphology of tumour cells and susceptibility to cytology by tumour necrosis factor. The role of cellular fibronectin deposition in the extracellular matrix
Neale, M.L. & Matthews, N.

836 Glutathione s-transferase expression in fetal kidney and Wilms' tumour
Harrison, D.J., Hallam, I. & Lauder, J.

841 Fr-MLV infection induces erythroleukaemia instead of lymphoid leukaemia in mice given pituitary grafts
Fontanini, G., Basolo, F., Garzelli, C., Squaritini, F. & Toniolo, A.

846 Zn(II)-phthalocyanine as a photodynamic agent for tumours. II. Studies on the mechanism of photosensitised tumour necrosis
Milanesi, C., Zhou, C., Biolo, R. & Jori, G.

851 Non-P-glycoprotein-mediated multidrug resistance with reduced EGF receptor expression in a human large cell lung cancer cell line
Reeve, J.G., Rabbits, P.H. & Twentyman, P.R.

856 PLD-repair in human melanoma xenografts following single dose and fractionated irradiation
Rofstad, E.K.

861 Protective effects of D-TRP6-luteinizing hormone-releasing hormone microcapsules against cyclophosphamide-induced gonadotoxicity in female rats
Bokser, L., Sende, B. & Schally, A.V.

Clinical Oncology/Epidemiology
866 Mortality by laterality of the primary tumour among 55,000 breast cancer patients from the Swedish Cancer Registry
Rutqvist, L.E. & Johansson, H.

869 Duct carcinoma in situ: predictors of local recurrence and progression in patients treated by surgery alone

873 An assessment of extensive intraductal component as a risk factor for local recurrence after breast-conserving therapy
Jacquemier, J., Kurz, J.M., Amatrict, R., Brandone, H., Ayne, Y. & Spitalier, J.-M.

877 Does the oestrogen receptor concentration of a breast cancer change during systemic therapy?

881 Body height and risk of breast cancer. A prospective study of 23,831 Norwegian women
Vatten, L.J. & Kvinsland, S.

886 Detection of P24 protein in human breast cancer: influence of receptor status and oestrogen exposure
Seymour, L., Becwoda, W.R., Meyer, K. & Behr, A.

891 Comparison of anti-foetal colonic microvillus and anti-CEA antibodies in preoperative radioimmunolocalisation of colorectal cancer

895 The maintenance of busulfan-induced remissions in chronic granulocytic leukaemia with recombinant interferon α-2b
Bergsagel, D.E. & Messner, H.

899 Thymus cancer epidemiology in England and Wales
dos Santos Silva, I. & Swerdlow, A.J.

(continued inside back cover)
Cytologic screening for cancer of the uterine cervix in Sweden evaluated by identification and simulation
Gustafsson, L. & Adami, H-O.

Frequency of hepatic HBV-DNA in patients with cirrhosis and hepatocellular carcinoma: relation to serum HBV markers
White, Y.S., Johnson, P.J., Davison, F. & Williams, R.

The pharmacokinetics of 5-fluourouracil administered by arterial infusion in advanced colorectal hepatic metastases

Frequency of serum tumour marker monitoring in patients with non seminomatous germ cell tumours
Seckl, M.J., Rustin, G.J.S. & Bagshawe, K.D.

Etoposide and adriamycin containing combination chemotherapy (HOPE-Bleo) for relapsed Hodgkin’s disease
Perren, T.J., Selby, P.J., Milan, S., Meldrum, M. & McElwain, T.J.

Malignant pleural mesothelioma and epidermal growth factor (EGF-R). Relationship of EGF-R with histology and survival using fixed paraffin embedded tissue and the F4, monoclonal antibody

Ototoxicity of cisplatinum in children and adolescents

Systemic cancer and the FAMMM syndrome
Bergman, W., Watson, P., de Jong, J., Lynch, H.T. & Fusaro, R.M.

Decreased hepatic function in patients with hepatoma or liver metastasis monitored by a hepatocyte specific galactosylated radioligand
Virgolini, I., Müller, C., Klepetko, W., Angelberger, P., Bergmann, H., O’Grady, J. & Sinzinger, H.

Cancer Registry Data
Thornton-Jones, H.

British Association for Cancer Research Association of Cancer Physicians/Leukaemia Research Fund Joint Winter Meeting on Leukaemia and Lymphomas, 11-12 December 1989

Erratum
