Role 20 Large-scale culture system
69 In Expression 27
51 Reversal of Plasminogen 57
50 Expression of a growth arrest specific gene (gas-1) in transformed cells
52 Autocrine stimulation of growth of AR4-2J rat pancreatic tumour cells by gastrin
56 Role of cholecystokinin in dietary fat-promoted azaserine-induced pancreatic carcinogenesis in rats
53 Plasminogen receptors on rat colon carcinoma cells
57 Lipid metabolism in cancer cachexia
62 Reversal of multidrug resistance by surfactants
69 In vitro interaction of litchiin and artemisinin
74 In vivo measurement of the association constant of a radiolabelled monoclonal antibody in experimental immunotargeting
