Malignant progression

Expression

Hyperresistance

Pathology review in cancer research

Retinoids, identity

Characterisation of a new mouse monoclonal antibody (ONS-M21) reactive with both medulloloblastomas and gliomas

Moriuchi, S., Shimizu, K., Miyao, Y. & Hayakawa, T.

Hyperresistance to 4-nitroquinoline 1-oxide cytotoxicity and reduced DNA damage formation in dermal fibroblast strains derived from five members of a cancer-prone family

Mirzayans, R., Sabour, M., Rauth, A.M. & Paterson, M.C.

Retinoids, breast cancer and NK cells

Expression of different conformations of p53 in the blast cells of acute myeloblastic leukaemia is related to in vitro growth characteristics

Zhu, Y.-M., Bradbury, D. & Russell, N.

A novel cell-based assay for the evaluation of anti-ras compounds

Decreased adhesion of endothelial cells and matrix proteins of H-2K\textsuperscript{k} gene transfected tumour cells

Malignant progression of SV40-immortalised human milk epithelial cells

Expression of the nm23-2/NDP kinase z gene in rat mammary and oral carcinoma cells of varying metastatic potential

Henderson, B.R.

Identity of tumorigenic human urothelial cell lines and 'spontaneously' transformed sublines

Christensen, B., Hansen, C., Debiec-Rychter, M., Kieler, J., Otienso, S. & Schmidt, J.

Body protein and lipid deficit in tumour-bearing rats in relation to age

Oudart, H., Heitz, A., Bnouham, M., Malan, A. & Le Maho, Y.

Regulation of intracellular pH in subpopulations of cells derived from spheroids and solid tumours

Boyer, M.J., Barnard, M., Hedley, D.W. & Tannock, I.F.

Changes in subcellular doxorubicin distribution and cellular accumulation alone can largely account for doxorubicin resistance in SW-1573 lung cancer and MCF-7 breast cancer multidrug resistant tumour cells

Enhancement of tumorigenicity of human breast adenocarcinoma cells in nude mice by matrigel and fibroblasts

Characterisation of a LoVo subline resistant to a benzoyl mustard derivative of distamycin A (FCE 24517)

Capolongo, L., Melegaro, G., Brogini, M., Mongelli, N. & Grandi, M.

Similarity and co-expression of tumour-associated antigens recognised by different monoclonal antibodies

Sakahara, H., Saga, T., Endo, K., Kousaka, T., Hosono, M., Kobayashi, H., Shirato, M. & Konishi, J.

Expression of CD59, a complement regulator protein and a second ligand of the CD2 molecule, and CD46 in normal and neoplastic colorectal epithelium

Koretz, K., Bruderlein, S., Henne, C. & Möller, P.

Suramin inhibits bFGF-induced endothelial cell proliferation and angiogenesis in the chick chorioallantoic membrane

Danest, R., Del Bianchi, S., Soldani, P., Campagni, A., La Rocca, R.V., Myers, C.E., Paparelli, A. & Del Tacca, M.

Genistein modulates the decreased drug accumulation in non-P-glycoprotein mediated multidrug resistant tumour cells

Clinical Oncology/Epidemiology

Epithelial mucin core antigen (EMCA) in assessing therapeutic response in advanced breast cancer – a comparison with CA15.3

(continued inside back cover)
Effective mobilisation of peripheral blood progenitor cells with ‘Dexa-BEAM’ and G-CSF: Timing of harvesting and composition of the leukapheresis product

958

Mechanisms of oncogenesis in patients with familial retinoblastoma

Onadim, Z., Hogg, A. & Cowell, J.K.

Screening and the costs of treating colorectal cancer

Spinal cord compression in breast cancer: a review of 70 cases

Quality of cancer registry data: a comparison of data provided by clinicians with those of registration personnel

Schouten, L.J., Jager, J.J. & van den Brandt, P.A.

Declining incidence is greater for esophageal than gastric cancer in Shanghai, People’s Republic of China

Zheng, W., Jin, F., Devesa, S.S., Blot, W.J., Fraumeni Jr., J.F. & Gao, Y.-T.

Repeat administration of high dose melphalan in relapsed myeloma

Mansi, J.L., Cunningham, D., Viner, C., Ellis, E., Meldrum, M., Milan, S. & Gore, M.

Chemotherapy of advanced breast cancer: outcome and prognostic factors

Effects of interleukin-3 on myelosuppression induced by chemotherapy for ovarian cancer and small cell undifferentiated tumours

Long-term survival after pancreatic adenocarcinoma – often a misdiagnosis?

Alanen, K.A. & Joensuu, H.

Risk of second primary cancer after Hodgkin’s disease in patients in the British National Lymphoma Investigation: relationships to host factors, histology and stage of Hodgkin’s disease, and splenectomy

Trends in lip cancer incidence in Vaud, Switzerland

Levi, F., La Vecchia, C., Te, V.-C. & Franceschi, S.

Epstein-Barr virus and carcinomas: rare association of the virus with gastric adenocarcinomas

Inverse association of nm23-H1 expression by colorectal cancer with liver metastasis

Yamaguchi, A., Urano, T., Fushida, S., Furukawa, K., Nishimura, G., Yonemura, Y., Miyazaki, I., Nakagawara, G. & Shiku, H.

A cohort study of cystic fibrosis and malignancy

Sheldon, C.D., Hodson, M.E., Carpenter, L.M. & Swerdlow, A.J.

p53 immunohistochemistry in transitional cell carcinoma and dysplasia of the urinary bladder correlates with disease progression

Patients with metastatic renal carcinoma candidate for immunotherapy with cytokines. Analysis of a single institution study on 181 patients

Correspondence

Co-carcinogenic effect of sulphasalazine

Meenan, J.

Reply to the letter from Dr Meenan
