The official journal of EUSOMA is now BI-MONTHLY

In its new bi-monthly form, The Breast continues to maintain its balance between basic sciences, surgical and clinical papers. As well as the physiology of the normal breast, it provides all the relevant coverage of treatment and management of patients with benign and malignant diseases. The Breast provides comprehensive coverage including aetiology, biology, investigative, medical and surgical aspects.

The Breast is unquestionably the premier journal in this important area.

Already enjoying a justifiable reputation for the quality and range of its editorial scope, The Breast now offers you even more. In 1995, The Breast increased the number of issues from 4 to 6 per year.

The Breast has a reputation for the quality and immediacy of the primary research papers it publishes, which can only be enhanced by the increased frequency of issues.

Chairmen
Professor Sir Patrick Forrest
Edinburgh, UK
Professor Umberto Veronesi
European Institute of Oncology
Milan, Italy

Managing Editor
Mr J Michael Dixon
Edinburgh, UK

USA Editor
Professor David Page
Nashville, Tennessee
