January 2018 Corneal Special Issue
Submission deadline 1st August 2017

Eye welcomes all submissions relating to the cornea, subject to favourable peer-review, but especially those that advance or review the following topics:

1. *Improved therapy/protocols for corneal ectasias, for example but not limited to: keratoconus, optimised therapy for collagen cross linking, new additive corneal stromal therapies to treat corneal thinning/ectasia, new techniques to assess ectasia progression*

2. *Advances in corneal surgical techniques for corneal transplantation, for example but not limited to: laser assisted keratoplasty, stem cell therapy to correct corneal stromal deficiency, endothelial degeneration, epithelial deficiency*

3. *Improvements in treatment of ocular surface disease, for example but not limited to: Ocular Graft Versus Host Disease, Comments on DEWS II report, Sjogrens disease, Meibomian Gland Dysfunction*

4. *Protocols or improvements in corneal infections, for example but not limited to: use of anti-inflammatories in microbial keratitis, optimised treatment protocols for acanthamoeba or fungal keratitis, surgical management of corneal infection.*

Please ensure you are familiar with our [author guidelines](#) before submitting. Manuscripts should be submitted using our electronic [submission website](#). Please clearly state in the introductory letter that your manuscript is intended for the Corneal Special Issue.

If you have any queries regarding this, please contact the editorial office eye@rcophth.ac.uk
