As a leading journal publishing timely medical research in gastroenterology and hepatology, The American Journal of Gastroenterology (AJG) provides clinicians and researchers with authoritative practical and professional support regarding the gastroenterological disorders seen most often in patients.

**Timely, insightful content…**

- **The notable Red Section** which starts each issue by summarizing What’s Hot in the Red Journal and publishing articles, debates and editorials covering techniques, methodologies, ethics, practice management and other important matters of concern to the international clinical community.

- **Original Research** at the highest level covering the spectrum of clinical gastroenterology and hepatology including the latest clinical studies on emerging developments.

- **Study Highlights** which summarize current knowledge and newly presented information in a particular article – a useful tool for the busy clinician.

- In depth **Clinical Reviews** on hot topics in gastroenterology and liver disease.

For **online access** or a **free trial**, contact your regional office using the details on the back.
