Genetics in Medicine is the official journal of the American College of Medical Genetics and Genomics, and seeks to enhance the knowledge and practice of medical genetics. This peer-reviewed monthly journal offers innovative, practice-focused papers in contemporary genetics medicine, and is recommended for all physicians wishing to apply new genetic findings to their medical practice, research, and education.

In addition to original research articles, Genetics in Medicine publishes editorials, commentaries, reports, policy updates and letters. Topics covered include:

- Genomics
- Medical & Clinical genetics
- Clinical informatics
- Biochemical genetics
- Cytogenetics
- Molecular genetics
- Public health genetics
- Genetic epidemiology
- Genetics counselling

Genepod is the podcast from the journal Genetics in Medicine. Join us as we delve into the latest research in medical genetics and genomics, featuring highlighted content from this leading journal. Topics recently featured include: Newborn genetic screening, Cystic fibrosis on African continent, Sickle Cell Disease in Africa & the Middle East, and Secondary findings in genomic sequencing.

For online access or a free trial, contact your regional office using the details on the back.
Benefits to site license access

A site license to Genetics in Medicine provides your users with online access 24 hours a day, as well as full access to the services and functionality available on nature.com including:

- Advance Online Publication (AOP) articles
- Special web focuses
- Export citation and Export references options
- Linking to external resources, including PubMed
- Access to Special Issues
- Content listed in CrossRef Search
- Advanced search – search by keyword, author, article title, or year of publication for refined results

Managing your site license portfolio

Your site license can be easily managed through a single administration account, from which you can monitor and update all of your institution’s subscription information. Pricing is based on your institution’s type and the number of users (your Science FTE count or number of R&D staff).

As a site license customer, you will benefit from:

- COUNTER-compliant usage reports
- Remote access authentication
- Post-cancellation rights for your security
- Customer support – available online, by email and telephone
- Promotional tools to publicize your site license
- License provider information – institution branding will appear on all content accessible with your site license
- Email alerts – notifying you of license policy changes, new publications and offers
