Pediatric Research is published monthly on behalf of the International Pediatric Research Foundation, and features original papers, invited reviews, and commentaries on the causes of childhood diseases and disorders of development, extending from molecular biology to epidemiology.

The journal includes Pediatric Research Reviews, an annual supplemental issue that highlights a key topic in pediatrics. The 2012 Reviews Issue focused on the development of stem cell-based therapies.

Pediapod - A podcast series highlighting news and articles published in Pediatric Research, including cutting-edge interviews, commentaries, and analysis. To listen to the latest podcast from Pediatric Research visit: www.nature.com/pr/podcasts

For online access or a free trial, contact your regional office using the details on the back.
