This Capri Science Conference will bring together world leaders in translational cardiovascular research. It will focus on new genetic and molecular mechanisms that underlie cardiovascular disease, as well as on new diagnostic tools and innovative therapies. The goal of the meeting is to stimulate interdisciplinary discussion and collaboration between academic and clinical researchers in the area.

October 14-16, 2007
Palazzo dei Congressi Di Capri,
Capri, Italy

ORGANIZERS
Gianluigi Condorelli (Consiglio Nazionale delle Ricerche, Italy)
Elizabeth G. Nabel (National Institutes of Health, USA)
Michael Basson (Nature Medicine, USA)

SPEAKERS
Aravinda Chakravarti (Johns Hopkins University, USA)
Rory Collins (UK Biobank)
Anna Dominiczak (University of Glasgow, UK)
Helmut Drexler (Hannover Medical School, Germany)
Stefan Engelhard (University of Wuerzburg, Germany)
