DIREVO Biotech AG

DIREVO is an innovative Biotech Company focusing on directed evolution. Our business are tailor-made biomolecules for industrial, chemical and pharmaceutical applications.

DIREVO offers:

- Strong expertise in enzyme technologies.
- Tight connectivity between high-throughput screening based directed evolution and application relevant assays.
- Broad patent position in the field of screening technologies and directed evolution.

DIREVO is located in Cologne, Germany, and consists of an international team of scientists and engineers.

Innovating evolution for tomorrow's solutions.

DIREVO Biotech AG, Nattermannallee 1,
D-50829 Cologne (Köln), Germany
