ARE YOU READY FOR AN EXCITING CAREER THAT COULD HELP IMPROVE MILLIONS OF LIVES AROUND THE WORLD?

Then consider joining the scientific and medical forces at NIAID. As part of the Division of Microbiology and Infectious Diseases (DMID) at NIAID, the Parasitology and International Programs Branch (PIPB) is responsible for planning and conducting programs of extramural research aimed at understanding the biology of protozoan and helminth parasites and their interaction with the human host as well as their vectors and intermediate hosts. DMID/PIPB has the following scientific opportunity available:

**Medical Officer**

As a Medical Officer, the selected candidate will provide leadership and scientific/medical expertise and guidance in the planning, development, implementation and evaluation of translational and clinical research concepts, projects and initiatives to appropriate advisory groups; identify opportunities and problem areas, research gaps and relevant program needs and make recommendations for and facilitate new research efforts, clinical studies, clinical trials or other initiatives; and communicate with grantees/contractors, cooperative group members/representatives and others on policy interpretation, merit review and evaluation processes and procedures, and on decisions, concerns or other issues/matters of a medical/scientific nature. The selected candidate will also oversee and advise on translational and clinical studies of parasitic diseases.

In order to be considered for this position, applicants must possess an M.D. or D.O. and have experience in translational and/or clinical research to examine the causes, diagnosis, treatment and prevention of infectious diseases. Research experience in bacteriology, mycology, virology, parasitic and other tropical diseases, or vector biology is required. Experience with clinical studies including developing and/or writing protocols, managing clinical study sites, and evaluating adverse and serious adverse events is desirable. Investigational product development, Phase I through Phase III clinical trials experience and knowledge of regulatory controls is also desirable. Board certification or eligibility in Internal Medicine, Pediatrics, or Infectious Diseases is highly desirable.

This vacancy is being advertised under the Title 5 hiring authority. Applicants must be a U.S. Citizen. Salary is commensurate with research experience and accomplishments. A full Civil Service package of benefits (including retirement, health, life and long-term care insurance, Thrift Savings Plan, etc.) is available.
